# SEEDS of CHANGE®

“Farm-to-Fork” and “Seed-to-Plate” are catch phrases that resonate deeply here at Seeds of Change. For over 25 years, we have lived the lifestyle of planting what we love, nurturing our plants to harvest and enjoying the fruits of our labor at our dining tables.

Our goal is to make this process simple for all. We offer the very best quality seeds and tools for a good value, so you can start your organic garden with confidence. We search far and wide for high quality natural fertilizers and pest controls so you can cultivate your plants organically. We have a well vetted catalog of supplies so you can garden in style and enjoy the organic experience to its fullest extent.

Get out and plant this year and remember to have fun, enjoy the experience and have great conversation at the dinner table while enjoying home grown goodness.

Yours in the Garden,  
*Seeds of Change*

# Vegetables

## Amaranth

Direct seed shallowly, ½ inch deep, 8-10 seeds per foot, when soil has warmed and danger of frost has passed. Keep seedbed evenly moist during germination. Harvest young leaves while still tender for salads and cooked greens; cut flowers for bouquets; use seeds for gluten free grain.

### HOPI RED DYE

TA/R 🌱🌿

This most versatile amaranth is especially prized for its tender baby leaves that add a bright fuchsia pink accent to fresh salads. The plant matures with deep red leaves and stunning flowers that yield nutritious black seeds. The Hopi still use it to make red corn bread.

3-21 days baby • 70 days to flower • 110 days to seed • 4-6 ft. plants

#01804 pack (~250 seeds) \$3.49

#07085 bulk (~2,500 seeds) \$19.99

Hopi Red Dye

### BURGUNDY

TA/R 🌱🌿

This tall variety sports elegant, burgundy flower plumes that bear plentiful white seeds preferred for grain and flour. The intense reddish purple leaves add color and nutrition to salads. Its size and color make it a wonderful addition to large gardens.

100-110 days to mature • 6-8 ft. plants

#01296 pack (~250 seeds) \$3.49

Burgundy

## Artichoke

Grows best in cool coastal areas with mild winters where they can live up to 5 years. In areas with cold winters, Imperial Star can be grown as an annual. Sow indoors 8 weeks before last frost in 2-4" pots, germinating at 70-80°F. Seedlings should be exposed to ~500 hours of temperatures below 50°F but above freezing to yield in the first year.

### IMPERIAL STAR

TA/R 🌱🌿

This is the only artichoke that can be grown almost anywhere if you time it right! Each plant will produce 6-8 rounded, nearly spineless, artichokes in the first season on attractive, silvery-blue plants. Steam the artichokes to enjoy their nutty, tender flavor.

Perennial in USDA zones 7-10 • 80-90 days to mature • 4-5 ft. plants

#05679 pack (~30 seeds) \$3.49

#06534 bulk (~250 seeds) \$19.99

Imperial Star

# Beans

Always direct-seed beans. Plant in late spring when danger of frost has passed and soils have warmed. Germination is best at 70-85°F. Inoculate seed with Rhizobium bacteria prior to planting to enhance nitrogen availability. Avoid water-stress during bloom and pod set.

## GREEN BUSH SNAP

### MAXIBEL

TA   

This fancy French filet bean is long and slender with fabulous flavor and tenderness. Pick the beans when pencil thick for your delicious gourmet creations.  
50-55 days to mature • 6-7 in. pods • 16-20 in. plants  
#07449 pack (~50 seeds) \$3.49

Maxibel

### BLUE LAKE

TA   

Highly regarded for exceptional taste and tenderness, this 1961 All-America Selections winner remains widely popular for its high yields of sweet, round, stringless beans on vigorous plants. The meaty texture makes them a great choice for canning and freezing.  
55-60 days to mature • 6-7 in. pods • 15-18 in. plants  
#01479 pack (~50 seeds) \$3.49

Blue Lake

### BOUNTIFUL STRINGLESS

TA   

**HEIRLOOM** This heirloom, semi-vining bush variety is reliable in yielding straight, slightly flat beans that are great fresh, steamed or frozen.  
50-60 days to mature • 6-7 in. pods • 18-24 in. plants  
#01002 pack (~50 seeds) \$3.49

Bountiful Stringless

### ROSE CREEK BEAUTY

TA   

**RARE** These delicious green beans can be eaten fresh or shelled throughout the summer. When dried, the stunning cream and maroon splashed beans can be used to make excellent bean soups to get you through the winter.

**55-60 days to mature • 5-6 in. pods • 16-20 in. plants**

#07596 pack (~50 seeds) \$3.49

Rose Creek Beauty

### PURPLE ROSE

TA   

**RARE** The shiny, dark purple bean pods of Purple Rose are slightly short at about 4 inches long, but are packed with flavor. The high yielding plants have a slight vining appearance, but do not need trellising.

**55-60 days to mature • 3½-4½ in. pods • 16-20 in. plants**

#07597 pack (~50 seeds) \$3.49

Purple Rose

### DRY SOUP BUSH BEANS

TA  

#### GREAT NORTHERN

**TRADITIONAL • HEIRLOOM** This pure white, kidney-shaped bean is widely used for making flavorful baked beans and delicious soups. This productive, early maturing bush bean cooks quick and easy. Originally obtained from Northwest Native Americans, this variety is well adapted to short season climates or early plantings in the south.

**85 days to mature • 20-24 inch plants**

#08113 pack (~50 seeds) \$3.49

Great Northern

### COLORFUL BUSH SNAP BEANS

#### BEURRE DE ROQUENCOURT

TA  

**HEIRLOOM** This heirloom yellow wax bean from France produces an abundance of tender, flavorful, stringless beans the color of butter to add a delicious gourmet flair to your meals.

**50-55 days to mature • 5-6 in. pods • 16-20 in. plants**

#07326 pack (~50 seeds) \$3.49

Beurre de Roquencourt

### POLE BEANS & HALF-RUNNERS

#### SCARLET EMPEROR

TA  

**HEIRLOOM** This classic runner bean produces loads of stringless, fleshy pods full of big, savory, purple-and-black mottled "jewelry beans" delicious eaten as a snap bean, fresh shelled or dried. The vigorous climbing vines with bright scarlet flowers attract bees and hummingbirds.

**90-95 days to mature • 7-9 in. pods • 6-10 ft. vines • 1 in. beans**

#01540 pack (~50 seeds) \$3.49

#07089 bulk (~500 seeds) \$19.99

Scarlet Emperor

#### TONGUE OF FIRE

TA  

**HEIRLOOM** This delicious "borlotto" or "cranberry" bush bean from Italy has gorgeous pink-splashed pods filled with plump meaty beans. Enjoy them freshly shelled or dried for soup. Color fades when cooked.

**75 days to mature • 15-18 inch plants • 6-8 inch pods**

#07886 pack (~50 seeds) \$3.49

Tongue of Fire

### RED MEXICAN

TA 🌱/🌱/🌱

**HEIRLOOM** This premium, prolific red-brown dry bean is outstanding for baking and canning because it holds its shape and texture without becoming soggy. This bean has been a prized variety since its introduction in California in 1855.

**85-100 days to mature • 12-15 in. plants**

#01548 pack (~50 seeds) \$3.49

Red Mexican

### TIGER'S EYE

TA 🌱/🌱/🌱

**HEIRLOOM** This gorgeous heirloom dry bean is orange with maroon swirls. The flavor is similar to pinto beans, but creamier. Use for refried beans, dips, soups, stews and baking.

**85-95 days to mature • 36-42 in. plants**

#07526 pack (~50 seeds) \$3.49

Tiger's Eye

### PAINT DRY

TA 🌱/🌱/🌱

A drought tolerant white bean with three distinct yellow eye patterns that is excellent for baking or soups. This is eastern Washington's version of the Yellow Eye bean from New England. It is also popular for making jewelry.

**100-110 days to mature • 16-20 in. plants**

#04456 pack (~50 seeds) \$3.49

Paint Dry

### MITLA BLACK TEPARY

TA 🌱/🌱/🌱

**RARE** An exceptionally flavorful variety from Oaxaca, Mexico that produces small black beans with a nutty-sweet flavor and creamy texture. These quick-cooking beans have higher protein, nutrient and fiber content than standard dry beans and produce well under drought stress.

**60-90 days to mature • 24-36 in. plants**

#01282 pack (~50 seeds) \$3.49

#06544 bulk (~500 seeds) \$19.99

Mitla Black Tepary

### HUTTERITE

TA 🌱/🌱/🌱

**HEIRLOOM** The distinctive light green beans of this Austrian heirloom cook fast, saving time and energy. Known for their delicate, buttery flavor, they make delicious, creamy soups and chowders. The plants are high yielding and early maturing.

**75-85 days to mature • 6-7 in. pods • 24-36 in. plants**

#01267 pack (~50 seeds) \$3.49

Hutterite

## Beets

Beets are most commonly direct seeded, but may be transplanted. Direct seed beginning in early spring, 2-3 weeks before the last frost, and succession plant every two weeks throughout the growing season for a continuous supply. Keep evenly watered until maturity for the best quality roots.

### SHIRAZ TALL TOP

HB 🌱/🌱/🌱

The lush, fast growing tops of this dual-purpose beet can be selectively cut for salads and steaming even before the roots are ready to harvest. The sweet, dark red roots are incredibly smooth due to their disease resistance. Our best beet for roasting, boiling or canning.

**55-60 days to mature • 3-4 in. roots • 16-18 in. plants**

#05182 pack (~150 seeds) \$3.49

Shiraz Tall Top

### COLORFUL BEET MIX

HB 🌱/🌞

A rainbow mix of all our favorite beets including sweet deep red, golden, and candy striped roots topped by nutritious bright green, dark green with red ribs, and dark red foliage. Includes Detroit Dark Red, Chioggia, Bull's Blood and Golden Beets.

**55-65 days to mature • 3-6 in. roots • 12-18 in. plants**

#06066 pack (~150 seeds) **\$3.49**

#06547 bulk (~1,500 seeds) **\$19.99**

### PRONTO

HB 🌱/🌞

Hardy biennial 8-12" tops, 3-4" roots. A true classic that is quick to grow and produces delicious, tender, burgundy red beets with fantastic tops. This beet keeps its perfectly uniform size in the garden for an extended harvest.

**50-60 days to mature • 3-4 in. roots • 8-12 in tops**

#05093 pack (~150 seeds) **\$3.49**

### ALVRO MONO

HB 🌱/🌞

A smooth skinned beet with deep, solid red flesh and tender green tops. This uniform variety matures slightly earlier and develops a single root for easier more precise seeding, reducing thinning.

**55-65 days to mature • 2-4 in. roots • 8-12 in tops**

#06010 pack (~150 seeds) **\$3.49**

#06546 bulk (~1,500 seeds) **\$19.99**

### CHIOGGIA

HB 🌱/🌞

**HEIRLOOM** The sweetest and mildest of beets when cooked, this Italian heirloom reveals a red-and-white bull's eye pattern when sliced and looks especially festive grated for salad.

**55-65 days to mature • 2-4 in. roots • 8-12 in. tops**

#07411 pack (~150 seeds) **\$3.49**

### TOUCHSTONE GOLD

HB 🌱/🌞

These golden beet roots with a sweet flavor milder than red beets are popular at farm and specialty markets. The bright green tops with yellow stems look nice in salads.

**55-65 days to mature • 2-4 in. roots • 8-12 in. tops**

#07602 pack (~150 seeds) **\$3.49**

# Broccoli

Broccoli may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (optimum 60–65°F). Harvest broccoli and side shoots when buds are still small and tightly closed. After you harvest the main central head, tender side shoots will follow for an extended harvest.

## NUTRI-BUD

This tender, delicious, early maturing broccoli is unusually high in free glutamine, a building block of protein and an important healing nutrient. The large central heads are followed by abundant side shoots on these productive, sturdy plants developed by Alan Kapuler, one of our founders.

**55–70 days to mature • 6–8 in. heads • 16–20 in. plants**

#01787 pack (~100 seeds) \$3.49

## EARLY GREEN

This early, short season variety yields large, tight heads that mature over a two week period and are followed by succulent side shoots that extend the harvest period even longer. Plant in early spring or fall to enjoy the flavorful florets fresh, steamed or stir-fried.

**60–70 days to mature • 5–7 in. heads • 16–20 in. plants**

#01525 pack (~100 seeds) \$3.49

## BELSTAR F1

Our most reliable, widely adapted hybrid broccoli, suitable for spring, summer and fall planting seasons. The tender, tasty, dark blue-green domed heads are perfect for all uses and the prolific side shoots that follow allow for ample second cuttings.

**65–70 days to mature • 6–8 in. heads • 18–20 in. plants**

#05863 pack (~50 seeds) \$3.49

## FIESTA F1

A tasty and nutritious hybrid with tall, dark, blue-green domed heads on medium compact plants. This impressive variety is suitable for summer and fall harvesting and has proven disease resistance.

**65–70 days to mature • 6–7 in. heads • 18–20 in. plant**

#05864 pack (~50 seeds) \$3.49

## SPRING RAAB

Broccoli, turnip, and radish flavors harmonize in this fast growing, cool weather crop that is best eaten raw in salads or lightly sautéed in olive oil. A prized spring treat in Italy, the stems form small buds surrounded by tender young leaves that are all delicious.

**40–60 days to mature • 1–2 in. florets • 12 in. plants**

#05392 pack (~100 seeds) \$3.49

## SANTEE SPROUTING F1

This unique variety has burgundy red florets that are great on fresh vegetable platters or in stir-fries. Ideal for mild winter climates (down to 18°F), plant Santee in mid-summer to harvest an abundance of small, sweet spears from late winter into spring.

**72–115 days to mature • 1–2 in. florets • 18–24 in. plants**

#05925 pack (~25 seeds) \$3.49

# Cabbage

Cabbage is best started indoors and transplanted, but may also be direct seeded. Ideal soil temperature for germination is between 65-75°F. Harvest cabbage when heads are relatively young and firm.

## GREEN

### FAMOSA F1

HB 🌱/🌱

The puckered leaves of this savoyed green cabbage make a light, fluffy cole slaw that holds the dressing well. The dark green outer leaves protect the tender, yellow-tinted heart that is great for making crispy salads or sauerkraut.

70-75 days to mature • 4-5 lb. heads

#05763 pack (~50 seeds) \$3.49

Famosa F1

## RED

### RED ACRE

HB 🌱/🌱

An early red cabbage that produces dense, deep purple, small round heads great for colorful slaws, salads, and cooking. It won't split when planted in the spring, and is one of the best cabbages for winter storage when planted in the late summer for fall harvest.

70-75 days to mature • 2-4 lb. heads

#05749 pack (~50 seeds) \$3.49

Red Acre

## CHINESE

### BILKO F1

HB 🌱/🌱

The crispy, sweet and tangy, golden blanched leaves of this Napa type Chinese cabbage are great fresh, cooked or pickled for kimchee. This barrel-shaped variety matures later than Nikko but is bigger and has more disease resistance. Plant for summer and fall harvest.

65-70 days to mature • 12 in. x 5 in. heads

#05869 pack (~50 seeds) \$3.49

Bilko F1

### NIKKO F1

HB 🌱/🌱

An early maturing hybrid, this delicious Napa type cabbage is suitable for summer and fall harvest. The dark-green, compact plants have an extended growing season and are resistant to disease.

50-60 days to mature • 11 in. x 5 in. heads

#05762 pack (~50 seeds) \$3.49

Nikko F1

## CHINA CHOY

HB 🌱/🌱

A stir-fry staple, this variety of pak choi has succulent thick white stalks and rounded dark green leaves that form a loose, upright rosette. Use like celery or for nutritious greens. This cool season crop does best when planted in early spring or late summer.

45 days to mature • 14-18 in. stalks

#01505 pack (~50 seeds) \$3.49

China Choy

# Carrots

Always direct seed carrots. Seed from early spring through summer, sowing fall carrots 80-90 days prior to the first fall frost date. In mild winter areas, carrots can remain in the ground and be harvested as needed.

## GARDEN CARROT MIX

HB 🌱🌞🌱

The best fresh eating orange carrots can be grown from this widely adapted mix of crispy, sweet, cylindrical Nantes-type and long elegant Imperator varieties. Deep, loose soil is needed to grow these long beauties. Kids love 'em!

**75 days to mature • 6-12 in. roots**

#06067 pack (~400 seeds) \$3.49

Garden Carrot Mix

## YAYA F1

HB 🌱🌞🌱

Yaya is widely held to be one of the best tasting sweet Nantes carrots for all seasons. This early, hybrid carrot is bright orange with the classic cylindrical shape, blunt tip, and sweetness characteristic of Nantes type varieties. Strong tops make them easy to pull.

**50-55 days to mature • 6 in. roots • 12 in. tops**

#05868 pack (~400 seeds) \$3.49

#06564 bulk (~4,000 seeds) \$19.99

Yaya F1

## NAPOLI F1

HB 🌱🌞🌱

Very early, full sized hybrid carrot with beautiful, bright orange roots and strong, dark green tops. This is the best variety for planting in August and harvesting super-sweet, frost-kissed carrots through the fall and winter. Grow in cold frames to maintain access in the snow.

**55-60 days to mature • 7-8 in. roots • 10-12 in. tops**

#05866 pack (~400 seeds) \$3.49

#06560 bulk (~4,000 seeds) \$19.99

Napoli F1

## RED CORE CHANTENAY

HB 🌱🌞🌱

**HEIRLOOM** Repeatedly rated the best tasting of all carrots in our field trials for its sweet and complex flavor, this classic orange Chantenay strain has broad shoulders and smooth sides that taper to a blunt tip. A favorite since 1929, Red Core keeps all winter in the root cellar.

**65-75 days to mature • 5-7 in. roots**

#01457 pack (~400 seeds) \$3.49

#06561 bulk (~4,000 seeds) \$19.99

Red Core Chantenay

## COLORS

### COLORFUL CARROT MIX

HB 🌱🌞🌱

Enjoy the fun and convenience of this mix of our favorite colored carrots for a surprising and beautiful harvest with a range of savory and sweet flavors. Contains orange, purple, yellow and white varieties.

**70-85 days to mature • 8-10 in. roots**

#06993 pack (~400 seeds) \$3.49

Colorful Carrot Mix

## DRAGON

HB 🌱/🌞

A strikingly beautiful and refined carrot with deep reddish-purple skin, orange interior and yellow core that looks great sliced up and arranged on the plate or shredded into salads. The complex, slightly spicy and sweet flavor is especially good cooked or roasted.

**70-90 days to mature • 6-8 in. roots**

#05365 pack (~400 seeds) \$3.49

#06559 bulk (~4,000 seeds) \$19.99

Dragon

## WHITE SATIN F1

HB 🌱/🌞

This beautiful, ivory white carrot has good, complex flavor and crisp texture for fresh eating or cooking. The long roots of this Nantes/Imperator type carrot have blunt tips and strong tops for easy harvesting. Mix it with other colors for a rainbow effect.

**70-75 days to mature • 8-9 in. roots**

#06037 pack (~400 seeds) \$3.49

White Satin F1

# Celery

Celery is generally started indoors 10-12 weeks before transplanting because it takes a long time to germinate and grow seedlings large enough to plant. Transplant outdoors after the last spring frost when weather is warm and settled, NOTE: Exposure of young seedlings to temps below 55°F over a few days can cause premature bolting. Harden plants by reducing water, NOT temperature, shortly before transplanting.

## TANGO

HB 🌱/🌞

Each smooth stalk of this early, productive celery is especially tender, sweet, and never stringy. Tango does well in most U.S. locations, while it excels in northern latitudes. Cut individual stalks for an extended harvest or at the base to harvest the whole plant.

**80-85 days to mature • 18-20 in. stalks • Requires abundant water**

#05962 pack (~100 seeds) \$3.49

Tango

## RED VENTURE

HB 🌱/🌞

Deep red stems with bright green leaves make this beautifully unusual variety stand out. The productive plants have succulent red stalks with real celery flavor that are much more tender and juicy than other red varieties. Stalks retain their color when cooked.

**100-110 days to mature • 16-20 in. stalks**

#05768 pack (~100 seeds) \$3.49

Red Venture

# Chard

Chard is most commonly direct seeded, but may be transplanted. Direct seed beginning on the last spring frost date. Ideal soil temperature for germination is 65-75°F. Be careful not to disturb the roots when transplanting. Harvest chard continuously a few leaves at a time starting at the bottom of the plant while the leaves are tender.

## FORDHOOK

HB 🌱/🌞

This classic Swiss chard has medium green, savoyed leaves accented with white veins on broad white stems. The healthy greens have a hearty spinach flavor and are delicious steamed or sautéed. This easy-to-grow crop tolerates summer heat as well as cooler fall temperatures.

**50-55 days to mature • 16-18 in. leaves**

#05927 pack (~100 seeds) \$3.49

#06569 bulk (~1,000 seeds) \$19.99

Fordhook

# Chia

A highly nutritious plant and seed in the sage family, Chia microgreens can be grown indoors year round for a nutritious addition to salads. Fill a shallow tray with ½ inch of sterile sowing medium. Sow seeds thickly on the surface and keep moist. Grow in indirect light. Harvest in 12-14 days.

## CHIA

HB 🌱/☀️/🌿

Grow your own superfood! Chia microgreens are slightly spicy and packed with nutrition. In mild regions with long growing seasons, the blue-flowered plants can be grown to full size for harvesting your own Chia seeds. When mixed with water, the seeds of chia make an edible gel prized as an energy booster. See our Grow Guide for details at [seedsofchange.com](http://seedsofchange.com). **12-14 days for microgreens • 120 days to seed • 3-4 ft. plant**  
#07957 pack (~3,500 seeds) \$3.49

Chia

# Chicory

Chicories can be direct seeded or transplanted. Optimum germination occurs at soil temperatures from 60-70°F, but seeds will germinate as low as 45°F. Gradually thin to one plant every 10-12 inches, eating the thinnings. Chicories are a diverse group of leafy salad greens with a pleasant, mildly bitter flavor. They add contrasting colors, flavors and textures to fresh salads; can be grilled or braised.

## ENDIVE & ESCAROLE

### TRÈS FIN MARAÎCHÈRE (FRISÉE)

HB/R 🌱/☀️/🌿

**HEIRLOOM** This classic French frisée endive forms a heart of finely cut, frilly leaves that are mildly bitter and deliciously crispy in gourmet salad mixes. Tie the heads closed one week before harvest to blanch the center to a creamy white color. Plant for spring or fall harvest for best results.

**45-60 days to mature • 8-12 in. heads**

#01151 pack (~150 seeds) \$3.49

Trés Fin Maraîchère

## EROS

HB/R 🌱/☀️/🌿

The broad green leaves of this early escarole blanch to a creamy yellow at the heart with succulent white midribs and can be grown from summer to fall. The mildly bitter leaves are delicious in Italian white bean soups, braised in olive oil or chopped for crispy fresh salads.

**45-50 days to mature • 8-12 in. heads**

#05701 pack (~150 seeds) \$3.49

Eros

## ITALIAN DANDELION RADICCHIO

### BELLESQUE

HB/R 🌱/☀️/🌿

This curly endive produces ruffled rosettes of broad green leaves with sweet white midribs that are great in European style salads, soups and pasta dishes. Best harvested in fall or overwintered in mild climates for early spring harvest. It can also be grown like baby leaf salad mix.

**45-60 days to mature • 10-16 in. heads**

#05091 pack (~150 seeds) \$3.49

Bellesque

### LEONARDO

HB/R 🌱/☀️/🌿

This widely adapted radicchio is the best variety to use to get nice solid heads throughout spring, summer and fall. The large round heads are red with white veins, with a mildly bitter flavor. Drizzle with olive oil and grill or use as a gorgeous salad ingredient.

**65-125 days to mature • 5-6 in. heads**

#05730 pack (~75 seeds) \$3.49

Leonardo

# Collards

Both heat and cold tolerant, collards are a staple crop that can be grown year-round in the South, although the flavor is sweeter in the cooler months. Collards may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (ideally 60-65°F). Harvest collards continuously a few leaves at a time starting at the bottom of the plant - while the leaves are still young and healthy.

## COLLARD GREENS

HB 🌱☀️/🌱

Tender, mild-flavored, blue-green collard leaves are full of vitamins and cancer-preventing compounds. Both heat tolerant and frost hardy, the flavor grows sweeter with fall frosts. Slow cook with ham hock and please pass the corn bread!

**65-80 days to mature • 3 feet tall**

#06070 pack (~100 seeds) \$3.49

#07100 bulk (~1,000 seeds) \$19.99

Collard Greens

## VATES CHAMPION

HB 🌱☀️/🌱

Earlier than our standard Collard, this robust variety has slick, crumpled, dark blue-green, nutritious leaves that taste sweeter after a few fall frosts. Tolerant of both hot and cold temperature extremes, it can be grown through the summer and thrives in cool weather.

**70 days to mature • 3 feet tall**

#05694 pack (~100 seeds) \$3.49

#06570 bulk (~1,000 seeds) \$19.99

Vates Champion

# Corn

Corn is most commonly direct seeded, but can also be started in cell trays indoors for better germination and an earlier crop. Corn seed will rot in cool soil, so wait until soil temperatures reach 60-65°F before direct seeding. Ideal soil temperature for germination is 75-85°F. Harvest when the silks are dried brown and the ears feel plump to the tip.

## SWEET CORN

### GOLDEN BANTAM

TA 🌱☀️

**HEIRLOOM** Two or more slender ears with 8 rows of deep, broad golden kernels bursting with old fashioned corn flavor are produced on each plant of this home garden favorite. This early maturing heirloom succeeds even in short seasons and is best eaten on the day of harvest.

**75-80 days to mature • 5-6 ft. plant • 7-8 in. ears**

#06079 pack (~50 seeds) \$3.49

#07101 bulk (~500 seeds) \$19.99

Golden Bantam

### HOOKEES

TA 🌱☀️

**HEIRLOOM** This early heirloom sweet corn produces small, flavorful white ears on short plants adapted to mild northern and coastal summer climates. If left to mature past the sweet eating stage, the kernels turn dark purple for beautiful fall decorations.

**60-70 days to mature • 4-5 ft. tall • 5-6 in. ears**

#01018 pack (~50 seeds) \$3.49

#06571 bulk (~500 seeds) \$19.99

Hookers

## PARCHING

### SUPAI RED PARCH

TA 🌱☀️🌱

**RARE** Dry roast the fully dried ears or kernels of this exceptional parching corn in a skillet to enjoy the nutty, richly sweet flavor of this traditional southwestern snack, often accented with chile lime salt! The soft, chewy red kernels have a distinctive golden starburst pattern.

**105-115 days to mature • 6-7 ft. tall • 8-10 in. ears**

#01578 pack (~50 seeds) \$3.49

#07104 bulk (~500 seeds) \$19.99

Supai Red Parch

## FLOUR & ORNAMENTAL

### WACHICHU FLINT

TA 🌱☀️

**HEIRLOOM** The long slender ears of this vigorous flint corn display a spectacular range of colors and patterns for ornamental use. The kernels have a hard, translucent seed coat and can be ground into a hearty corn meal.

**80-85 days to mature • 4-5 ft. tall • 6 in. ears**

#04996 pack (~50 seeds) \$3.49

#07105 bulk (~500 seeds) \$19.99

Wachichu Flint

## MANDAN RED

**HEIRLOOM** This versatile flour corn from the Mandan Indians of the North Central Plains area, can be eaten like sweet corn when the kernels are pale yellow and milky. Once the kernels mature to a deep red and dry they are good for parching and easy to grind into corn flour for breads.

**80-85 days to mature • 4-5 ft. tall • 6 in. ears**

**#01455 pack (~50 seeds) \$3.49**

**#07103 bulk (~500 seeds) \$19.99**

Mandan Red

## POPCORN

### DAKOTA BLACK

**RARE** A truly unique, long maturing popcorn with nearly black, pointed seeds that make delicious white popcorn with black centers. This variety must dry fully in the field for maximum popping.

**95-105 days to mature • 4-6 ft. tall**

**#05094 pack (~50 seeds) \$3.49**

Dakota Black

# Cucumbers

Cucumbers are almost always direct seeded, but can also be started indoors. Direct seed when soil temperatures reach 65-70°F and all danger of frost has passed. Cucumbers do not like having their roots disturbed, so transplant outside carefully after all danger of frost has passed and weather is warm and settled. Asian varieties must be trellised to produce straight fruit.

## PICKLING

### ADAM F1

These small, gherkin-style cucumbers have an even, cylindrical shape, thin, bumpy dark green skin and dense fruit to make nice crispy pickles. The high yielding, disease resistant plants set fruit without pollination, perfect for growing in greenhouses or in urban areas lacking bees.

**50-55 days to mature • 2-4 in. fruit**

**#05893 pack (~10 seeds) \$3.49**

### SUMTER

Perfect for pickling, this disease resistant cucumber produces blocky, slightly tapered, medium green fruit with white spines. Widely adapted for growing in both northern and southern states.

**55-60 days to mature • 2-4 in. fruit**

**#06076 pack (~55 seeds) \$3.49**

**#07107 bulk (~550 seeds) \$19.99**

Sumter

## SLICERS

### SWEET MARKETMORE

This rightly popular variety is a consistent producer of delicious, mildly sweet cucumbers with dark green, protective skin. The plants are highly disease-resistant and produce over a long season in hot or cool weather. A selection from Marketmore 76.

**60-65 days to mature • 6-8 in. fruit • 4-6 ft. vines**

**#01024 pack (~55 seeds) \$3.49**

Sweet Marketmore

### BUSH CHAMPION

**CONTAINER** Abundant and flavorful bright green slicing cucumbers are produced over a long harvest season on compact, virus resistant plants, making this variety a great choice for small gardens or growing in containers.

**60-70 days to mature • 8-10 in. fruit**

**#01021 pack (~55 seeds) \$3.49**

Bush Champion

### SABER F1

TA 🌱/🌞

Vigorous vines produce sweet, juicy, dark green, cylindrical cucumbers ideal for salads and sandwiches. The early, high yielding, disease resistant plants set fruit without pollination, so can be grown in closed greenhouses or in urban areas lacking bees.

45-55 days to mature • 7-9 in. fruit

#05882 pack (~10 seeds) \$3.49

#06577 bulk (~100 seeds) \$19.99

Saber F1

### AKITO F1

TA 🌱/🌞

This main season slicing cucumber produces loads of straight, uniform, dark green fruit with sweet flavor and crisp texture. The disease resistant plants are steady producers for a long summer of satisfying salads.

50-60 days to mature • 6-8 in. fruit

#05883 pack (~10 seeds) \$3.49

#07108 bulk (~100 seeds) \$19.99

Akito F1

### PLATINUM

## SPECIALTY

TA 🌱/🌞

This improved, white-skinned cucumber from Cornell University has gotten rave reviews for its sweet, mild flavor and crispy texture from our test farms around the country. The healthy vines produce an abundance of pale green to white cucumbers for slicing and salads.

65 days to mature • 3-5 ft. vines • 5-7 in. fruit

#07888 pack (~55 seeds) \$3.49

Platinum

### LEMON

TA 🌱/🌞

**HEIRLOOM** This heirloom cucumber looks like a lemon and can be eaten like an apple! Thin, tender skins and sweet, juicy white flesh make them a joy to eat and a garden favorite.

60-70 days to mature • 3-5 foot vines • 2-3 in. fruit

#07272 pack (~55 seeds) \$3.49

Lemon

### PAINTED SERPENT

TA 🌱/🌞

A beautiful variation on the traditional Armenian cucumber, Painted Serpent has slightly ridged, alternating dark and light green stripes adorning the large, curved fruits. The thin skin does not need to be peeled and looks and tastes fabulous in fresh salads. It's crispy texture and extra sweet flavor is reminiscent of its close relative, the honeydew melon. The plants thrive in hot weather.

60-70 days to mature • 12-18 in. fruit

#08142 pack (~55 seeds) \$3.49

Painted Serpent

# Eggplant

Eggplant thrives in hot, humid climates. It is a cold sensitive, heat loving crop and requires a long, warm growing season for successful production. A heavy feeder, it is best grown on fertile, sandy-loam soils with a pH of 6-6.8. Harvest by cutting from the plant when fruits have developed color, but are still firm to the touch and glossy. Eggplant can be baked, roasted, pickled, mashed or dried.

### JAPANESE PICKLING

TA 🌱/🌞

Sweet, mild flavored and exceptionally tender, these slender, slightly curved, vibrant purple eggplants are great for quick stir-fries and pickling. The early maturing plants reward even cool climate gardeners with an abundant harvest.

70-75 days to mature • 10-16 in. long • 1-2 in. diameter fruit

#01257 pack (~20 seeds) \$3.49

Japanese Pickling

### LITTLE FINGERS

TA 🌱/🌞

These small, slender eggplants have glossy black skin and mild, delicate flavor. They are ideal for cooking quickly in a stir fry, and produce an early, prolific crop.

60-70 days to mature • 22-26 in. plant • 4-6 in. fruit

#07476 pack (~20 seeds) \$3.49

Little Fingers

## VITTORIA

TA 🌱☀️

An early maturing and productive eggplant, Vittoria produces gorgeous, purple black, tear-drop shaped fruits with mild flavor and firm texture. Great for grilling or pan frying.

**65-75 days to mature • 30-36 in. plants • 2-3 in. diameter fruit**

#05776 pack (~20 seeds) \$3.49

## IMPERIAL BLACK BEAUTY

TA 🌱☀️

**HEIRLOOM** The plump, slightly lobed, rich flavored fruits of this heirloom are a beautiful, shiny purple black and are typically used for making Eggplant Parmesan. Still popular since its introduction in 1910.

**80-85 days to mature • 24-30 in. plants • 4-5 in. diameter fruit**

#01660 pack (~20 seeds) \$3.49

#07109 bulk (~200 seeds) \$19.99

## ROSA BIANCA

TA 🌱☀️

**HEIRLOOM** A gorgeous white-and-pink blushed, Italian heirloom variety with a delicate, mild flavor, creamy consistency, and no bitterness. Considered one of the best for all uses by gourmets and gardeners alike, fruits can grow to the size of footballs in hot climates.

**80-90 days to mature • 4-6 in. long • 4-5 in. diameter fruit**

#01543 pack (~20 seeds) \$3.49

## LOUISIANA LONG GREEN

TA 🌱☀️

**HEIRLOOM** The mildly sweet, elongated pale green fruits of this southern heirloom are sometimes called green bananas. These high quality eggplants are excellent for ratatouille. This variety needs a long, hot growing season for best results and good yields.

**95 days to mature • 7-9 in. long fruit • 18-24 in. plant**

#04758 pack (~20 seeds) \$3.49

# Gourmet Greens

Lettuces and greens are cool season crops and grow best at 60-70°F, but can be planted starting in early spring when daytime temperatures are above 50°F. Plant small sections every three weeks for continuous harvests. Clear cut leaves about an inch above the growing point to allow for even regrowth. Regrows a few times depending on the season.

## ARUGULA (ROQUETTE)

HA/R 🌱☀️/🌱☀️

**HEIRLOOM** This essential salad green produces nutty, slightly bitter flavored, deeply lobed leaves that get spicy as they get older. Arugula adds zest to salad mixes, or try using it instead of basil to make a savory pesto with sweet almonds for pasta or appetizers.

**35-45 days to mature • 3-6 in. leaves**

#01028 pack (~500 seeds) \$3.49

#06535 bulk (~5,000 seeds) \$19.99

## CRESSIDA

HA/R 🌱☀️/🌱☀️

This curly leaved cress is also known as 'peppergrass' due to its mildly spicy flavor. Grow it indoors like microgreens or in the garden in spring and fall. It makes a zesty addition to fresh salads, or can be used as a garnish.

**20 days to mature • 3-8 in. leaves**

#05696 pack (~500 seeds) \$3.49

## MUSTARDS

### MIZUNA

The succulent, pointed, feathery leaves of this mild, rarely spicy, Asian mustard are a standard ingredient in salad and braising mixes. Vigorous and cold hardy, cut the leaves above the base and they will regrow quickly for multiple harvests late into the fall.

**21 days to baby • 45 days to mature**  
#01050 pack (~250 seeds) \$3.49

Mizuna

### GREEN WAVE

Spicy and hot when fresh, the vibrant green, deeply frilled, finely cut leaves of this mustard mellow when cooked. The upright plants do not bolt to seed in the heat as quickly as most others. Harvest the tender baby leaves for salad and use the mature leaves for cooking.

**21 days to baby • 45 days to mature**  
#05092 pack (~250 seeds) \$3.49

Green Wave

### RED GIANT

An extremely attractive, flavorful mustard with large reddish-purple tinted leaves that are prized for baby salad and braising mixes. This variety is highly productive, slow to bolt to seed, and extremely winter hardy.

**21 days to baby • 55 days to mature**  
#04469 pack (~250 seeds) \$3.49

Red Giant

### OSAKA PURPLE

The large rounded purple leaves of this Japanese mustard are beautiful and brightly spicy. Try placing a fillet of steamed fish on top of a bed of these leaves as a substitute for wasabi. It is best planted as a cool weather crop and can also be used as a companion plant to repel aphids.

**21 days to baby • 45 days to mature**  
#01051 pack (~250 seeds) \$3.49

Osaka Purple

### TATSOI (SPOON)

This attractive, miniature Oriental vegetable forms rosettes of dark green, spoon-shaped leaves with a delicate, mild flavor for salads or stir-fries. Plant in early spring or fall for the biggest and best plants. The cold hardy plants can be harvested even after snowfall.

**21 days to baby • 50 days to mature**  
#01572 pack (~250 seeds) \$3.49

Tatsoi

## Kale

Kale is a cold hardy and prolific producer of nutritious greens. Use baby leaves raw in salads or sauté or steam mature leaves. Kale may be direct seeded or transplanted. Direct-seed when outdoor temperatures are above 50°F (optimum 60–65°F). Harvest kale continuously a few leaves at a time starting at the bottom of the plant while the leaves are still young and healthy.

### RED RUSSIAN

**HEIRLOOM** The smooth supple, blue-green leaves of this heirloom kale is accented with pretty purple-veins. Sweeter and more tender than other kales during warm summer weather, it also tolerates winter cold. Plant in spring and fall for healthy greens all year long.

**60-70 days to mature • 24-30 in. plants**  
#01033 pack (~150 seeds) \$3.49

Red Russian

### DINOSAUR (LACINATO)

HB 🌱🌞🌱🌱

**HEIRLOOM** The dark blue-green leaves of this popular, cold-hardy kale are valued for their high nutritional content. Delicious and tender when steamed or sautéed, the flavor gets even sweeter after a few hard frosts. Plant in spring and fall for cool season greens. **70 days to mature • 24-30 in. plants**  
#07889 pack (~150 seeds) \$3.49

### HEALTHY KALE MIX

HB 🌱🌞🌱🌱

A mix of our favorite kale varieties so you can grow a steady supply of these healthy greens spring, fall and winter. Includes Dinosaur, Red Russian, True Siberian and curly kales. **70 days to mature • 24-30 in. plants**  
#07822 pack (~150 seeds) \$3.49

### TRUE SIBERIAN

HB 🌱🌞🌱🌱

This fast growing, exuberant kale has large, frilly, blue-green leaves that are particularly delicious when sweetened by fall frosts. As its name suggests, this hardy variety withstands cold winter weather and is slow to bolt to seed in summer making this a good year-round crop. **60-70 days to mature • 24-30 in. plants**  
#01034 pack (~150 seeds) \$3.49

## Kohlrabi

Kohlrabi is a wonderful cool-weather crop that is extremely versatile. Eaten raw or cooked, it is similar to broccoli, cauliflower and cabbage and tastes a bit like a mild, sweet turnip. Plant 3 to 4 weeks before the last frost date in spring. In warmer climates, plant in late summer for winter harvesting. Provide plants with at least 6 hours of sunlight in fertile, well-drained soil.

### KORIST F1

HB 🌱🌞🌱🌱

This unusual, cabbage family vegetable forms globe-shaped, above ground bulbs that are delicately sweet, crisp and juicy with a hint of broccoli flavor. Grate it into fresh salads or slice it for stir-fries, stews and casseroles. The leaves and stems are also tender and flavorful.

**60-65 days to mature • 4-5 in. diameter bulbs**  
#05873 pack (~100 seeds) \$3.49

### AZURE STAR

HB 🌱🌞🌱🌱

This delicious kohlrabi has beautiful purple skin with a nice white interior and lovely, dusky purple leaves. The crispy, juicy flesh can be grated for slaws and salads, or chopped for stir fries. **50 days to mature • 4-5 in. diameter bulbs**  
#08065 pack (~100 seeds) \$3.49

## Leeks

Leeks are widely adapted but grow best in cool, moderate climates. Leeks have a shallow root system and require consistent soil moisture. Seed summer leeks in early spring, about 4-6 weeks before average last frost date, or in mid to late summer for a fall planting to overwinter. As plants grow taller, hill up soil around the shafts to produce long, blanched shanks.

### KING RICHARD

HB 🌱🌞🌱🌱

This fast growing, early variety sets the standard for mild flavored summer leeks. The white shafts can be a foot long before the first, light green leaf. **75-85 days to mature • Up to 12 in. shafts**  
#06454 pack (~350 seeds) \$3.49

## SHERWOOD

HB 🌱/☀️/🌿

This dependable summer and fall leek is tender and delicately sweet with long elegant shanks up to a foot long. Enjoy them grilled, sautéed, stir-fried, or in soups.

**75-85 days to mature • Up to 12 in. shafts**  
#07376 pack (~350 seeds) \$3.49

## PONCHO

HB 🌱/☀️/🌿

This high quality summer variety produces savory, white-shafted leeks that are shorter and later to mature than King Richard. Start both in early spring for successive harvest. Their mild onion-like flavor is delicious in summer potato salads, vegetable dishes and French leek tarts.

**100-110 days to mature • 6-8 in. shafts**  
#01349 pack (~350 seeds) \$3.49

# Lettuce

The essential base for most fresh salads, lettuce comes in a range of greens and reds, as well as different head types that offer contrasting leaf shapes and textures between tender and crispy-crunchy. Lettuce is a cool season crop and grows best at 60-70°F, but can be planted in early spring as soon as the soil can be worked. Use shade cloth when sowing in hot weather. Plant head lettuces every three weeks for continuous harvests.

## GREEN LEAF

### SIMPSON BLACK-SEEDED

HA 🌱/☀️/🌿

**HEIRLOOM** Introduced in 1850, this heirloom variety has large, crumpled, light green leaves. The succulent inner leaves blanch almost white, and are sweet, never bitter. Fast growing, early, and adaptable, it stands up to heat and drought for spring, summer and fall planting.

**28 days to baby • 50 days to mature • 12-14 in. heads**  
• **Slow to bolt**  
#01041 pack (~500 seeds) \$3.49

### WALDMANN'S DARK GREEN

HA 🌱/☀️/🌿

The deep green, crispy ruffled leaves of this vigorous, reliable head lettuce have the perfect flavor and texture for salads. Start in early spring and fall for the best full size heads. This variety is also a good choice for growing as baby salad mix.

**28 days to baby • 50 days to mature • 12-14 in. heads**  
#05785 pack (~500 seeds) \$3.49

## SCOTTSDALE

HA 🌱/☀️/🌿

This heat tolerant, ruffled green leaf lettuce provides nice crunchy texture and sweet flavor even in the summer. It does best when grown from late spring into summer, and again after the summer solstice for harvest in early fall. Great on sandwiches or in tossed salads.

**50-55 days to mature • 12-14 in. heads • Slow to bolt**  
#06011 pack (~500 seeds) \$3.49

## CONCEPT

HA 🌱/☀️/🌿

This variety features outstanding, dense, full size heads with exceptionally sweet flavor. It has good heat resistance and holds up well in cooler fall weather.

**50 days to mature • 12-14 in. heads • Slow to bolt**  
#05895 pack (~500 seeds) \$3.49

## RED LEAF

### NEW RED FIRE

HA 🌱/☀️/🌿

Beautiful, frilly red-edged leaves with a fresh bright green base and interior form a heavy head that makes attractive, tender salads. This popular variety has set the standard for red leaf lettuce for many years. It can be grown spring, summer and fall for full size heads or baby leaf salads.

**28 days to baby • 55 days to mature • 12 in. heads**  
#05712 pack (~500 seeds) \$3.49

## REDINA

HA 🌱/🌞/🌱

This variety yields a bright, medium-red, semi-frilly loose leaf that is beautiful in salad mixes or as full heads.

**28 days to baby • 50 days to mature • 12-14 in. heads**  
#05713 pack (~500 seeds) \$3.49

## LOVELOCK

HA 🌱/🌞/🌱

One of our best heat-tolerant summer lettuces, Lovelock makes large, upright heads with beautiful, thick, bright green leaves edged with maroon. Its superior crispy texture, appearance and succulent, sweet flavor is outstanding in salads that will delight your family and friends.

**55 days to mature • 12-14 in. heads • Slow to bolt**  
#06012 pack (~150 seeds) \$3.49

## RED SAILS

HA 🌱/🌞/🌱

Crispy and sweet, never bitter, this tender, maroon-red-leaf lettuce was an All America Selections winner in 1985, and is still a favorite of home gardeners for its vigor, adaptability and excellent flavor. Grow in spring, summer and fall for full size heads or baby leaf.

**28 days to baby • 50 days to mature • 12-14 in. heads**  
**Slow to bolt**  
#05783 pack (~500 seeds) \$3.49

## GREEN ROMAINE

HA 🌱/🌞/🌱

### GREEN TOWERS

These upright heads of romaine lettuce are dark gray-green and dense with nice crunch and full bodied flavor. This variety does well in all parts of the country in spring and fall and can tolerate moderate summer heat.

**65-75 days to mature • 12 in. tall heads**  
#06014 pack (~500 seeds) \$3.49

### COASTAL STAR

HA 🌱/🌞/🌱

This is an early maturing, dark green romaine for spring or fall harvest. The large, heavy heads can be used intact or as hearts.

**60-70 days to mature • 12 in. heads**  
#06029 pack (~500 seeds) \$3.49

### TORETTO

HA 🌱/🌞/🌱

Our best summer romaine, Toretto needs heat and water to reach its full potential. The impressively large heads are medium dark green, dense and crunchy with sweet flavor. Slow growing and stress tolerant, it is highly rated by customers from Georgia to California.

**70-75 days to mature • 14 in. tall heads • Slow to bolt**  
#06013 pack (~500 seeds) \$3.49  
#06623 bulk (~5,000 seeds) \$19.99

## GREEN AND RED BUTTERHEAD

HA 🌱/🌞/🌱

### TOM THUMB

**HEIRLOOM** Treasured as the oldest American lettuce still available, this diminutive butterhead is perfect for close spacing in small gardens in spring and fall. Simply remove the core and arrange the whole head on a plate for a tender, delicious, single serving, gourmet salad.

**50-55 days to mature • 3-5 in. heads**  
#01139 pack (~500 seeds) \$3.49

### FOUR SEASONS

HA 🌱/🌞/🌱

**HEIRLOOM** Introduced from France in the 1880's, this beautiful heirloom butterhead has deep red outer leaves cradling a velvety-textured, bright green heart. Compact and cold tolerant, it does best in spring, fall and mild winters. It stays sweet in the summer, but is quick to bolt to seed.

**50-60 days to mature • 6-10 in. heads**  
#01136 pack (~500 seeds) \$3.49

### ROXY

HA 🌱/🌞/🌱

This voluminous red butterhead lettuce has slightly blistered leaves, and attractive, shiny color and tender, sweet flavor. Roxy holds in the garden for a long time and is one of the most popular organic varieties.

**50-60 days to mature • 8-10 in. heads • Slow to bolt**  
#05714 pack (~500 seeds) \$3.49

## GREEN AND RED OAKLEAF

### EMERALD OAK

HA 🌱/🌱/🌱

The brilliant green, oak-shaped leaves of this early, compact variety form a tight, compact rosette with a soft buttery texture, crispy ribs and sweet flavor for salads and sandwiches.

**28 days to baby • 50 days to mature • 3-4 in. long baby leaves • 6-8 in. tall heads**

#04994 pack (~500 seeds) \$3.49

Emerald Oak

### CANTARIX

HA 🌱/🌱/🌱

This stunning deep, dark red oakleaf lettuce forms large, dense glossy heads for home grown gourmet salads. A premium specialty variety, Cantarix is highly disease resistant and does best in spring and fall plantings, as well as areas with mild summer temperatures.

**50-55 days to mature • 8-10 in. heads**

#06019 pack (~150 seeds) \$3.49

Cantarix

## Salad Mix

Lettuces and greens are cool season crops and grow best at 60-70°F, but can be planted starting in early spring when daytime temperatures are above 50°F. Salad mixes are direct seeded. Plant small sections every three weeks for continuous harvests. Clear cut leaves about an inch above the growing point.

### ALL LETTUCE MIX

HA 🌱/🌱/🌱

A diverse mix of lettuces with contrasting colors and textures for tender, tasty salads fresh from your garden. Includes: Waldmann's, Red Sails, Dark Lolla Rossa, Emerald Oak, Outredgeous, Barcarole, Simpson Black-Seeded and Red Saladbowl.

**28 days to baby-leaf stage**

#05944 pack (~500 seeds) \$3.49

#06626 bulk (~5,000 seeds) \$19.99

All Lettuce Mix

### KALEIDOSCOPE PREMIUM LETTUCE MIX

HA 🌱/🌱/🌱

Our most disease resistant mix! A blend of premium lettuces offering a tapestry of deep colors, fine textures and sweet flavors for the highest quality salads fresh from your garden. Includes: Benito, Lettony, Pinecrest, Blade and Galactic.

**28 days to baby-leaf stage**

#05945 pack (~500 seeds) \$3.49

Kaleidoscope

### MILD GREENS MIX

HA 🌱/🌱/🌱

A mixture of the mild greens for tender young salad leaves. Toss together with All Lettuce Mix for a delicious custom salad. Includes: Mizuna, Komatsuna, Tatsoi, Arugula, Red Russian Kale and Maruba Santoh.

**21 days to baby-leaf stage**

#05946 pack (~500 seeds) \$3.49

#06630 bulk (~5,000 seeds) \$19.99

Mild Greens Mix

### MESCLUN SALAD MIX

HA 🌱/🌱/🌱

Our own Classic! A potpourri of color, shape, taste, and texture. Harvest a new combination each day. Early greens (Arugula, Osaka Purple Mustard, Spicy Cress, Red Russian Kale, and Très Fin Endive) complement an assortment of red and green lettuces.

**28 days to baby-leaf stage**

#01901 pack (~500 seeds) \$3.49

Mesclun

# Melons

Melons are a frost sensitive, heat loving crop, requiring 90°F temperatures during maturity to produce sweet fruit. Melons are most commonly direct seeded, although transplanting is necessary in areas with shorter seasons to achieve maturity. Sweet, juicy melons and watermelons are among the most anticipated treats of summer.

## MUSKMELONS

### HALE'S BEST JUMBO

**HEIRLOOM** This great tasting muskmelon has firm, sweet, aromatic salmon-colored flesh that is refreshing on its own or in fruit salads. The early maturing oval fruits have a yellow-green rind, coarse, protective netting and a light rib. The productive vines are disease and drought tolerant.

**80-90 days to mature • 3-4 lb. fruit**

#01555 pack (~30 seeds) \$3.49

### TOP MARK

This long-popular cantaloupe variety produces small oval fruits with sweet, firm, orange flesh perfect for breakfast for two! The fruits are well protected by their thick rind and heavy netting and do best in hot climates, particularly the South and desert Southwest.

**80-90 days to mature • 3½ lb. fruit**

#05989 pack (~30 seeds) \$3.49

### BLenheim ORANGE

**HEIRLOOM** This heirloom melon is just the right size for one or two servings and perfect for smoothies. It grows well in short season areas where the days stay hot and the night time temperatures dip down. Grown as early as 1881 in the greenhouses of England's Blenheim Palace.

**80-90 days to mature • 1-2 lb. fruit**

#01583 pack (~30 seeds) \$3.49

### ORO RICO F1

This richly flavored hybrid cantaloupe has sweet, firm and refreshingly crisp orange flesh that embodies the essence of summer. The disease resistant plants produce high yields of medium size melons that are easy to harvest and keep well.

**90-95 days to mature • 3-4 lb. fruit**

#06456 pack (~15 seeds) \$3.49

### NAVIGATOR F1

Impressively large, delicious cantaloupes are produced on these vigorous, disease resistant vines. The deep orange flesh is sweet, juicy and firm for slicing or fresh fruit salads. This outstanding hybrid is widely adapted to growing conditions throughout the western USA.

**85-95 days to mature • 4-6 lb. fruit**

#05990 pack (~15 seeds) \$3.49

## SPECIALTY

### SIVAN F1

This richly sweet melon has orange flesh with a hint of butterscotch flavor from its French Charentais specialty melon heritage. Fruits are round, ridged, slightly netted and don't split. Easier to grow than a true Charentais, harvest when fruits slip from the vine.

**75-85 days to mature • 1-1½ lb. fruit**

#05899 pack (~30 seeds) \$3.49

### SHARLYN

This sweet and juicy Ananas-type melon is renowned for its irresistible pineapple-like flavor. The aromatic, pale orange flesh has melt-in-your-mouth texture. The dark green rind matures to yellow or orange with a full net. These plants are highly productive and rewarding.

**85-95 days to mature • 3-6 lb. fruit**

#01248 pack (~30 seeds) \$3.49

### ARAVA F1

The fragrant bouquet and tropical sweet flavor of this early-maturing Galia-type melon make it one of our favorites. The well-netted fruits look like a cantaloupe on the outside, revealing the mouth watering, green interior upon slicing. The tender flesh is not as crispy as a honeydew.

**70-75 days to mature • 3-4 lb. fruit**

#05960 pack (~30 seeds) \$3.49

## EEL RIVER

**RARE** Luscious dense orange flesh infused with a distinctive, creamy peach flavor make this one of our finest melons. The distinctive thin spotted skin and pointed shape of this ugly-duckling is rarely found in stores. Grow your own to enjoy this flavorful treasure originally from Japan. Similar to Crane Melon.

**90-100 days to mature • 3-8 lb. fruit**

#01372 pack (~30 seeds) \$3.49

Eel River

## SWAN LAKE

This popular Asian specialty melon has exceptional sweet flavor. The crispy white flesh is uniquely swirled with peach and salmon, inside a smooth yellow rind accented with white sutures. Each heat loving plant produces several small melons.

**90 days to mature • 2-3 lb. fruit**

#01250 pack (~30 seeds) \$3.49

Swan Lake

## WATERMELONS

### SUGAR BABY

A summertime treat, Sugar Baby sets an abundance of flavorful fruit on compact vines. The refreshing, sweet, crunchy pink watermelons have thick, nearly black rinds and are small enough to fit easily in the icebox. Great for small gardens and the perfect size for kids.

**60-65 days to mature •**

**10-12 lbs. fruit**

#01524 pack

(~30 seeds) \$3.49

### SWEET DAKOTA ROSE

This deliciously sweet, medium-sized watermelon with bright red flesh and few seeds was developed by North Dakota farmer David Podoll to grow in cool, short season climates. Every year our high altitude and northern customers sing its praises as the juice drips down their chins.

**80-90 days to mature • 10-20 lbs. fruit**

#05194 pack (~30 seeds) \$3.49

#06643 bulk (~250 seeds) \$19.99

Sweet Dakota Rose

### CRIMSON SWEET

This extremely popular full-sized watermelon has juicy red flesh, high sugar content, few seeds, crisp texture and rich flavor. An All America Selections Winner in 1964, it is disease resistant and thrives in most climates. Perfect for large family reunions or beach picnics.

**85-100 days to mature • 15-25 lb. fruit • 8-10 ft. vines**

#01046 pack (~30 seeds) \$3.49

Crimson Sweet

## Okra

Okra is a tropical plant, growing optimally in hot, humid climates. Pick fruits when young and tender (about 5-6 days after flowering). Handle with care as fruits are easily injured. Daily harvests increase overall yields. Store at 45-50°F. May be damaged if chilled below 45°F.

### MAMMOTH SPINELESS

Known for its large, bright green, slightly ribbed pods that remain tender longer than other varieties, Mammoth Spineless is great for canning, frying and gumbo!

**55-65 days to mature • 3-5 in. pods • 3-6 ft. tall plants**

#07300 pack (~50 seeds) \$3.49

Mammoth Spineless

### WINDY WOOD

These deep green, extra smooth and tender pods make the best eating. Harvesting everyday extends the season and the tenderness. This variety thrives in warm weather growing conditions.

**55-65 days to mature • 3-4 in. pods • 3-6 ft. tall plants**

#05720 pack (~50 seeds) \$3.49

Windy Wood

# Onions

Onions are a hardy crop adapted to a wide range of growing conditions. Day length is important in variety selection of bulbing onions. Begin direct seeding spring crops 4-6 weeks before the last frost; fall crops 6-12 weeks before the first fall frost. Shallow roots require light, frequent irrigations when plants are young. Stop watering when bulbs have reached full size and the tops drop.

## STORAGE YELLOW

### VALENCIA

HB 🌱

This "Utah" strain of Yellow Sweet Spanish onion is mild flavored and a moderately good keeper. The large bulbs have a warm golden-brown skin and can be grown in all parts of North America.

**105-130 days to mature • 4-6 in. bulbs • Short to long day length**

#01833 pack (~350 seeds) \$3.49

#06656 bulk (~3,500 seeds) \$19.99

Valencia

### DAKOTA TEARS

HB 🌱

This pungent yellow storage onion produces large bulbs, up to 1 lb. each, with medium necks. The bulbs keep well through the winter in the root cellar. A highly uniform, open-pollinated variety that does best in "long-day" northern areas.

**100 days to mature • 4-6 in. bulbs • Long day length**

#06457 pack (~350 seeds) \$3.49

Dakota Tears

## STORAGE RED

### STOCKTON RED

HB 🌱

These large, red-skinned, globe-shaped onions have mild, red-ringed white flesh perfect for salads and burgers. This variety does best in hot, mid-latitude regions. Our strain has been rigorously restored to its original, high quality characteristics.

**110-120 days to mature • 180-200 days overwintered 4-6 in. bulbs • Intermediate day length**

#01483 pack (~350 seeds) \$3.49

#06655 bulk (~3,500 seeds) \$19.99

Stockton Red

### ROSSA DI MILANO

HB 🌱

**HEIRLOOM • RARE** This mid-sized, red Italian onion has a distinctive, mildly hot flavor demanded by chefs for authentic tasting Italian recipes. The large, flat-topped, red-skinned bulbs keep well and tolerate cool climates. Our strain is highly uniform and is best grown in mid-latitude to northern areas.

**110-120 days to mature • 4-5 in. bulbs • Long day length**

#01585 pack (~350 seeds) \$3.49

#06654 bulk (~3,500 seeds) \$19.99

Rossa Di Milano

### RED WING F1

HB 🌱

These hefty, wine-hued, globe-shaped red onions are perfect for fresh salads and slicing. The internal color gets even deeper red during storage. One of the most popular and widely grown red onions in the world, it keeps longer than any other and is best for northern areas.

**115-120 days to mature • 3-3½ in. bulbs • Long day length**

#05790 pack (~350 seeds) \$3.49

#06653 bulk (~3,500 seeds) \$19.99

Red Wing F1

## WHITE

### GLADSTONE

HB 🌱

These medium-large white onions have a nice mild flavor for making great onion rings! Very tolerant to poor soil conditions, Gladstone can be grown from mid-latitude to northern areas. The onions will store for a couple of months in the root cellar.

**110-115 days to mature • 3-3½ in. bulbs • Intermediate day length**

#05721 pack (~350 seeds) \$3.49

Gladstone

## HOW TO CHOOSE ONION DAY LENGTH VARIETIES

**Select Long Day Length Onion Varieties if you are planting in Northern Latitude States (Washington, Minnesota, Maine, etc.)**

**Select Intermediate Day Length Onion Varieties if you are planting in Middle Latitude States (Utah, Kansas, Virginia, etc.)**

**Select Short Day Length Onion Varieties if you are planting in Lower Latitude States (Arizona, Texas, Florida, etc.)**

## BUNCHING ONIONS

### PARADE BUNCHING

HB 🌱

This scallion has beautiful dark green foliage and long, straight, white shanks with a mild, pleasing onion flavor perfect for salads and garnishes. A very uniform variety, it grows vigorously, with little to no bulbing and can be grown anywhere.

**70–80 days to mature • 8–11 in. length • Short to long day length**

#05903 pack (~350 seeds) **\$3.49**

#07125 bulk (~3,500 seeds) **\$19.99**

Parade Bunching

### LISBON WHITE BUNCHING

HB 🌱

This widely adapted scallion/bunching onion is very popular with both American and European gardeners. It is both heat and cold-tolerant, can be succession planted, and can be overwintered in mild climates. Harvest the mild scallions throughout the summer. Small bulbs form and get more pungent as the plants mature.

**65–75 days to mature • 10–12 in. length • Short to long day length**

#07469 pack (~350 seeds) **\$3.49**

Lisbon White Bunching

## Peas

Planting peas is a springtime ritual that rewards the gardener with bountiful harvests of sweet tasting peas far more flavorful than store bought. Peas are a cold hardy crop, and need a cool growing season to succeed. Inoculate peas with Rhizobium bacteria to stimulate nitrogen fixation for improved yield and soil fertility. Even short-vined 'bush' varieties benefit from trellising, increasing yield and making them easier to harvest.

### SHELL

#### ALASKA

**HEIRLOOM** Each pod of this mildly sweet shelling pea contains 5-8 perfect peas ideal for fresh eating, canning and freezing. As its name suggests, this exceptionally early shell pea tolerates cool soils and short northern growing seasons. Staking is optional.

**55 days to mature • 24-36 in. vines**

#06899 pack (~50 seeds) **\$3.49**

Alaska

#### GREEN ARROW

HA 🌱

Each plump, 4-5" long pod of this English shelling variety is filled with 8-11 small, sweet, bright green peas. The productive, disease resistant vines are widely adapted and compact. Staking is optional, but makes harvesting easier.

**60-65 days to mature • 24-28 in. vines • 4-5 in. pods**

#06078 pack (~50 seeds) **\$3.49**

#07126 bulk (~500 seeds) **\$19.99**

Green Arrow

### OREGON TRAIL

HA 🌱

This sweet shell pea is prolific and delicious, fresh or frozen. The compact 20–24" vines produce two 3" pods from nearly every node for a rewarding harvest. Staking is optional. A cool season crop, peas like to be planted in early spring for harvest before the season gets hot.

**55–70 days to mature • 20–24 in. vines • 3 in. pods**

#01790 pack (~50 seeds) **\$3.49**

Oregon Trail

### PIONEER

HA 🌱

This flavorful shell pea produces plenty of 3–4" pods bearing 6–9 peas each on compact 20–24" vines. Easy to shell for side dishes, salads, or freezing. Plant early in the spring to harvest before the summer heat sets in. Staking is optional.

**55–70 days to mature • 20–24 in. vines • 3–4 in. pods**

#01791 pack (~50 seeds) **\$3.49**

#07127 bulk (~500 seeds) **\$19.99**

Pioneer

### TOM THUMB

HA 🌱☀️/🌱

**HEIRLOOM** This heirloom pea has extremely short 8-12" vines, making it the perfect pea to grow in containers and hanging baskets. The sweet, shelled peas are delicious cooked as a vegetable side dish or on salads. Grow it in cool spring and fall seasons. **55 days to mature • 8-12 in. plants • 3 inch pods**  
#07890 pack (~50 seeds) \$3.49

### SNOW

#### SUGAR POD 2

HA 🌱☀️/🌱

Thick, succulent, juicy edible pod snow peas are delicious fresh or in stir-fry, and freeze well for later uses. The 4-5" pods are held upward for easy picking from these compact, 24-30" non-climbing vines. The disease resistant plants thrive in cool spring and fall weather. Staking is optional.

**65-70 days to mature • 24-30 in. vines • 4-5 in. pods**  
#01792 pack (~50 seeds) \$3.49  
#06660 bulk (~500 seeds) \$19.99

## Peppers

Peppers are a warm season crop and grow best with warm nights, which increase flower and fruit set. Fruit set in many sweet peppers can be low at temperatures over 90°F, but most chile peppers are more heat tolerant. Peppers are most often started indoors and transplanted due to the relative difficulty of starting them successfully. Optimum germination occurs at 75-85°F soil temperature.

### SWEET PEPPERS

#### CAL WONDER RED

TA 🌱☀️

**HEIRLOOM** These sweet, juicy, classic 3-4" bell peppers are excellent fresh, roasted, sautéed or stuffed, and freeze well for later use. Fruits ripen early from dark green-to-red on vigorous, upright plants. Harvest the early fruits green to stimulate additional fruit set for red ripe harvest.

**65-70 days green • 85 days red • 3-4 in. blocky fruit • 24-30 in. tall plants**  
#06072 pack (~25 seeds) \$3.49

#### BIG RED

TA 🌱☀️

**HEIRLOOM** The most impressive open pollinated bell pepper we have found, this heirloom has thick, sweet, crispy flesh and thrives in cooler weather conditions. Enjoy Big Red at all stages (starts out green and turns a wonderful red as it matures), whether you are slicing them for pizza, or stuffing them with your favorite savory filling.

**70 days green • 80 days red • 3-4 in. blocky fruit • 24-30 in. tall plants**  
#06994 pack (~25 seeds) \$3.49

### EMERALD GIANT

TA 🌱☀️

An attractive green bell pepper with large 4 lobed fruits great for stuffing, pizza or salads. The vigorous plants have plenty of foliage for sun burn protection. **75 days green • 85 days red • 4-5 in. blocky fruit • 28-36 in. tall plants**

#07264 pack (~25 seeds) \$3.49

#### OLYMPUS F1

TA 🌱☀️

This large sweet hybrid bell pepper has thick, juicy walls and ripens to crimson red for all of your favorite recipes. The disease resistant plants yield a lot of fruit. **70 days green • 80 days red • 4 in. blocky fruit • 24-30 in. tall plants**

#06948 pack (~25 seeds) \$3.49

### BENDIGO F1

This early maturing hybrid variety produces perfectly delicious and perfectly shaped sweet bell peppers. The blocky, uniform 3" fruits have thick, succulent flesh and mature from green-to-red. The sturdy, virus resistant plants are well adapted to different environments.

**60 days green • 75 days red • 3 in. fruit • 24-36 in. plants**  
#05905 pack (~5 seeds) \$3.49

### ORION F1

Orion produces loads of large, blocky, sweet bell peppers with thick juicy flesh that mature from green-to-red. The vigorous, disease resistant, hybrid plants will set fruit in hot conditions and protect the fruit from sunburn. A great choice for gardeners from Florida to California.

**65 days green • 85 days red • 3½-4 in. blocky fruit • 24-36 in. tall plants**  
#05957 pack (~5 seeds) \$3.49

### SUNBRIGHT (YELLOW)

Sweet and bright yellow when mature, most of these blocky bells are 4-5 inches, but often produce some huge, 7 inch fruits that rival its namesake. The thick flesh is perfect for healthy vegetable party platters, salsas and cooking. This high yielding sister to Big Red is worth a try.

**75 days green • 85 days yellow • 4-7 in. blocky fruit • 24-30 in. tall plants**  
#06995 pack (~25 seeds) \$3.49

### PIMIENTO/PAPRIKA

#### RED RUFFLED PIMIENTO

This is a favorite sweet pimiento pepper with thick, juicy walls. Marvelous for fresh eating, this plant produces huge quantities of flattened, pleated red fruits that resemble a miniature pumpkin. Stuff them for nice, small size party snacks, or roast for sauces or panini.

**80-90 days to mature • 3-4 in. long fruit • 24-30 in. tall plants**  
#01232 pack (~25 seeds) \$3.49

## Chile Peppers

### Chile Heat index

🔥	Mild
🔥🔥	Medium
🔥🔥🔥	Hot
🔥🔥🔥🔥	Danger

### JALAPEÑO

**HEIRLOOM** Jalapeños are used in everything from Mexican cuisine to nachos to pizza. Upright plants yield loads of smooth, green conical fruits that get hotter as they mature to a deep red. When dried and mesquite-smoked, they are known as "chipotle" chiles.

**65-75 days to mature • 3-3½ in. long fruit • 24-36 in. tall plants**  
#01058 pack (~25 seeds) \$3.49  
#07131 bulk (~250 seeds) \$19.99

### TRIUNFO F1

This vigorous hybrid jalapeño is pungently spicy and has larger fruit than our heirloom variety. The disease resistant plants produce abundant yields of extra large dark green peppers used extensively in Southwestern and Mexican cuisine.

**65-75 days to mature • 4-5 in. long fruit • 24-36 in. tall plants**  
#05923 pack (~5 seeds) \$3.49  
#06669 bulk (~50 seeds) \$19.99

### CAMINO REAL F1

Typically used to make pico de gallo and spicy fresh salsas, this serrano pepper is considerably hotter than a jalapeño. The tall, slightly fuzzy plants of this adaptable, disease resistant hybrid produce lots of glossy, bullet-shaped fruits that can be harvested over an extend period.

**85 days to mature • 3-4 in. long fruit • 20-30 in. plants**  
#06022 pack (~5 seeds) \$3.49

Camino Real F1

### PADRON

**HEIRLOOM** The latest craze with innovative chefs! Pick these small, thin-skinned peppers from Spain while young and mild and sauté whole in olive oil with a dash of salt for tapas with a surprise – one or two will be spicy hot. All fruits will be hot if left to mature to full size.

**60 days immature mild • 80 days ripe hot • 1-3 in. long fruit • 16-24 in. plants**

#06459 pack (~25 seeds) \$3.49

Padron

### RING-O-FIRE CAYENNE

With classic cayenne shape, this long, thin, flaming red chile packs even more heat than the traditional cayenne. A chile addict's delight, fresh, dried, crushed or powdered. Try making your own vinegar-based hot sauce for Buffalo Wings.

**70-85 days to mature • 4-6 in. long fruit • 24-30 in. plants**

#01224 pack (~25 seeds) \$3.49

Ring-O-Fire Cayenne

### PURIRA

**Caution** – Extreme Heat! Bushy plants bear a profusion of unbelievably hot, glowing orange red 2" long chiles. Plants are quite ornamental as the fruit load ripens, making a nice container or border plant for the fall holiday season. Wear gloves when handling the fruits!

**70-75 days to mature • 2 in. long fruit • 16-24 in. tall plants**

#01634 pack (~25 seeds) \$3.49

Purira

### HABANERO

**RARE** Native to Central America's tropical lowlands, this world famous, scalding hot pepper thrives where summers are long, hot, and humid. Reported to be 1,000 times hotter than the jalapeño, its flavor profile is also fruity with a hint of citrus. Lantern-shaped fruits ripen to a rich orange.

**90-100 days to mature • 1-2 in. fruit • 18-24 in. plants**

#04538 pack (~25 seeds) \$3.49

Habanero

### AJI COLORADO

**RARE** A Peruvian specialty, this brilliant scarlet, mildly hot and spicy chile is used to make chile sauces, pastes and vinegars that liven up savory dishes. Short, sprawling plants bear shiny, 3-5" long peppers that mature from green to red and can be dried to make powder or flakes.

**75-85 days to mature • 3-5 in. fruit • 16-18 in. plants**  
#01631 pack (~25 seeds) \$3.49

Aji Colorado

### ESPANOLA IMPROVED

Excellent fresh, roasted or dried, this high yielding, medium hot chile was developed to mature in northern New Mexico's short growing season. The long, tapered, thin-walled fruits grow dark green, ripen to red and get spicier in warmer southern climates.

**70-80 days to mature • 5-7 in. fruit • 18-24 in. plants**

#01215 pack (~25 seeds) \$3.49

Espanola Improved

# Radishes

One of the easiest and quickest vegetables to grow, radishes come in a rainbow of colors and add a mildly spicy flavor to fresh salads. Radishes are direct seeded and do not transplant well. Direct seed beginning around the last spring frost date and every two weeks until hot weather sets in. Seed again when cool fall weather returns.

## RAINBOW MIX

HA 🌱 🌟 🌱

The kids will have fun harvesting this beautiful mix of colorful round radishes... and they might even eat them! Our custom mix includes Rudolf Red, Pretty In Pink, Plum Purple, and Hailstone White. All of these radishes have sweet, mild flavor and resist pithiness.

**20-30 days to mature • 1-2 in. round roots**

**#06996 pack (~250 seeds) \$3.49**

Rainbow Mix

## PURPLE PLUM

HA 🌱 🌟 🌱

This round, brilliant purple root is sweet, crunchy and never pithy. Its rare color makes it beautiful bunched alone or combined with other colors.

**25 days to mature • 1-2 in. round roots**

**#05732 pack (~250 seeds) \$3.49**

Purple Plum

## RUDOLF

HA 🌱 🌟 🌱

Always mild and flavorful, Rudolf is one of the most sought after radishes in Europe. The large, 1½" round, red globes have a nicely uniform shape and color, and short, erect foliage. Combine with purple, pink and white varieties for a rainbow mix.

**23-27 days to mature • 1½ in. round roots**

**#05734 pack (~250 seeds) \$3.49**

Rudolf

## CHERRY BELLE

HA 🌱 🌟 🌱

A tasty, 1-2" round, brilliant red radish with crisp white flesh that is perfect for refreshing salads. This 1949 All America Selections winner is tolerant of poor soils, retains tenderness and resists pithiness. It can be succession planted and harvested all summer long.

**23-27 days to mature • 1½ in. round roots**

**#01467 pack (~250 seeds) \$3.49**

**#07136 bulk (~2,500 seeds) \$19.99**

Cherry Belle

## ROUND BLACK SPANISH

HA 🌱 🌟 🌱

**HEIRLOOM** Often sighted on the shelves of specialty supermarkets, this nearly forgotten heirloom black radish has a nutty, mildly spicy flavor and dense white flesh that holds up well in recipes. It is best grown from late winter to early spring and is a healthy spring vegetable.

**55-65 days to mature**

**#01318 pack (~250 seeds) \$3.49**

Round Black Spanish

## MIYASHIGE DAIKON

HA 🌱 🌟 🌱

**HEIRLOOM** Delicious raw, pickled or in stir-fries, this crisp, mild flavored, 14-16" long Japanese daikon radish is a fall favorite, tops and all. Sow in late summer for fall harvest, as it will bolt to seed if planted in the spring. The roots keep up to four months in the root cellar.

**45-55 days to mature • 14-16 in. long roots**

**#01170 pack (~250 seeds) \$3.49**

Miyashige Daikon

# Rutabaga

A cool weather crop normally planted in early summer in the north, or mid-to-late summer further south. Sow seeds 1/2 inch deep, 1 inch apart and allow 12-18 inches between rows.

## JOAN

HB 🌱 🌟

**HEIRLOOM** This underappreciated heirloom variety produces yellow tubers that are uniformly round with purple tops and a delicate, sweet turnip-like flavor that improves after a hard frost.

**90-100 days to mature • 4-8 in. roots**

**#04514 pack (~200 seeds) \$3.49**

Joan

# Spinach

Fast growing spinach can be used at baby size for tender salads, or full size for nutritious cooking greens. It is a "superfood" believed to promote general health and reduce the risk of cancer, memory loss, macular degeneration, and high blood pressure. Seed germinates at soil temperatures between 50-68°F, and with dramatically increasing reluctance at higher temperatures. Begin succession plantings 4-6 weeks before the last spring frost, and 4-8 weeks before the first fall frost.

## CHARGER F1

HA 🌱 ⚡ 🌞

The smooth, dark green, oval round leaves of this fast growing baby-leaf spinach are tender and mild for gourmet quality salads. Grow this disease resistant variety in the spring or fall for best results.

**35-45 days to mature • 6-10 in. plants**

#06064 pack (~200 seeds) **\$3.49**

#06688 bulk (~2,000 seeds) **\$19.99**

Charger F1

## FIREBIRD F1

HA 🌱 ⚡ 🌞

An excellent main season variety, Firebird grows slow and steady for abundant harvest of smooth, dark green, tender leaves for fresh salads or cooking. This widely adapted hybrid variety is great for beginners.

**35-45 days to mature • 6-10 in. plants**

#06895 pack (~200 seeds) **\$3.49**

Firebird F1

# Squash and Pumpkins

Tender summer squash is available abundantly throughout the summer, while winter squash can be stored for use throughout the winter. Squash and pumpkins are frost sensitive, heat loving crops. Squash are most commonly direct seeded, although transplanting is possible in short season areas. Optimum soil temperature for germination is 70-85°F, but seeds will germinate at temperatures as low as 60°F.

## ZUCCHINI SUMMER SQUASH

### DARK STAR

TA 🌱 ⚡ 🌞

These deep dark green zucchinis with solid texture and mild flavor are perfect sautéed in butter, grilled or freshly sliced in salads. The big, tall plants have smooth, spineless stalks and a large root system for drought tolerance. Plant just once to harvest all summer long.

**45-55 days to mature • 6-8 in. fruit**

#05800 pack (~20 seeds) **\$3.49**

#06709 bulk (~250 seeds) **\$19.99**

Dark Star

## NATURA F1

TA 🌱 ⚡ 🌞

**CONTAINER** This classy dark green zucchini has a refined, glossy appearance perfect for harvesting gourmet baby fruit or enjoying at full size. The compact, disease resistant plants have an open habit that makes them easy to harvest and suitable for container growing.

**45-55 days to mature • 6-8 in. fruit**

#05998 pack (~20 seeds) **\$3.49**

Natura F1

## LYNX F1

TA 🌱 ⚡ 🌞

An elegant, medium green, hybrid zucchini for fresh summer salads, ratatouille or summer barbecues. The abundant fruit are easy to see and pick from the disease resistant, medium sized, open plants.

**50 days to mature • 7-9 in. fruit**

#06462 pack (~20 seeds) **\$3.49**

Lynx F1

## YELLOW SUMMER SQUASH

### YELLOW CROOKNECK

TA 🌱

**HEIRLOOM** A favorite for over 150 years, this classic, easy-to-grow, heirloom bush summer squash produces abundant white-fleshed fruits that are famously more flavorful than other summer squash types. Use a knife to cut fruit from the plant to avoid breaking the slender necks.

**50–55 days to mature • 6–8 in. fruit**

#01068 pack (~20 seeds) \$3.49

Yellow Crookneck

### LIONESS F1

TA 🌱

The beautiful, firm, mild flavored yellow straightneck squash produced by this disease resistant hybrid variety are often picked with the blossom still attached for making delicate stuffed squash blossoms. Plants are vigorous, with branching vines and high yields.

**45–55 days to mature • 6–8 in. fruit**

#06000 pack (~20 seeds) \$3.49

#06704 bulk (~250 seeds) \$19.99

Lioness F1

## SPECIALTY SUMMER SQUASH

### HURAKAN F1

TA 🌱

Traditionally used for stuffing, this gray-green, teardrop shaped summer squash can also be harvested early with the flower for gourmet recipes. The fruit is firm with excellent flavor and is the typical shape and color preferred in Mexico. Productive plants yield over a long harvest period.

**45–55 days to mature • 6–8 in. fruit**

#06001 pack (~20 seeds) \$3.49

Hurakan F1

## WINTER SQUASH

### GOLD NUGGET

TA 🌱

Great for stuffing, soups and pies, this early, extremely productive, compact bush variety is ideal for small gardens. Miniature pumpkin-shaped fruits have pale red-orange skin and dry, sweet, dark orange flesh. They can also be harvested young and tender and used like summer squash. An "All-American" selection!

**75–95 days to mature • 1–2 lb. fruit**

#01593 pack (~20 seeds) \$3.49

Gold Nugget

### BUTTERNUT

TA 🌱

One of the most popular winter squashes, Butternut is known for its bright orange, moist, sweet, smooth flesh. Delicious in soups, baked, or steamed, this productive variety yields classic tan, bell-shaped fruits that store well into late winter.

**100–110 days to mature • 4–5 lb. fruit**

#01069 pack (~20 seeds) \$3.49

Butternut

### UCHIKI KURI

TA 🌱

This red kuri (Hubbard type) winter squash has dark orange skin and flesh with superb eating quality and a sweet, nutty flavor. It is delicious baked, steamed, or stir-fried in savory dishes, as well as good for making dessert pies or breads. It can be stored for several months.

**90–100 days to mature • 3–4 lb. fruit**

#05740 pack (~20 seeds) \$3.49

Uchiki Kuri

### DISCUS BUSH BUTTERCUP

TA 🌱

An outstanding buttercup-type squash with superb sweet flavor and flaky texture. The dark orange flesh is great simply roasted or used to make sweet or savory winter pies. This variety matures earlier and stores longer than the standard.

**90 days to mature • 3 foot bush-type plants • 3 lb. fruits**

#07894 pack (~20 seeds) \$3.49

Discus Bush Buttercup

### SPAGHETTI

TA 🌱

**HEIRLOOM** Introduced in 1934, this unique squash has spaghetti-like strands of flesh that are delicious baked or boiled and served with butter or pasta sauce or even topped with pesto. Cut lengthwise, bake or steam, and separate the "spaghetti" strands with a fork. Stores for 3–4 months.

**90–100 days to mature • 3–4 lb. fruit**

#01518 pack (~20 seeds) \$3.49

Spaghetti

## HOWDEN PUMPKINS

**RARE** This classic large, ribbed orange pumpkin with thick sturdy handles is the best one for carving into fantastic jack-o'-lanterns for Halloween. The large pumpkins grow on long spreading vines, so allow plenty of space. Enjoy the seeds roasted as a snack at your carving party.

**110–120 days to mature • 15–30 lb. fruit**  
**#01198 pack (~20 seeds) \$3.49**

Howden

## ROUGE VIF D'ETAMPES

**HEIRLOOM** This heirloom "Cinderella" pumpkin from France has stunning, deep burnt red orange skin, distinctive ribbing, a flattened shape, and mildly sweet flesh. Use them first as fall decorations, then "harvest" your display to make delicious pumpkin pies for Thanksgiving.

**110–150 days to mature • 15–40 lb. fruit**  
**#01445 pack (~20 seeds) \$3.49**  
**#06701 bulk (~250 seeds) \$19.99**

Rouge Vif D'Etampes

## WINTER LUXURY

**HEIRLOOM** The sweet, dense flesh of this attractive, uniquely corky-skinned pumpkin is our first choice for making pumpkin pies! An heirloom from the 1890's, you can use it as a decoration until you are ready to cook it!

**95 days to mature • 6–10 ft. vines • 10 inch diameter • 8 lb. fruit**  
**#07893 pack (~20 seeds) \$3.49**

Winter Luxury

## LADY GODIVA

**HEIRLOOM** This heirloom pumpkin is known for its nutritious, 'naked' green seeds and ornamental appearance. The hullless seeds are high in protein and can be eaten raw, right out of the pumpkin, though most prefer them toasted. A popular variety at pumpkin carving parties!

**105 days to mature • 6–10 ft. vines • 8–12 lb. fruit**  
**#07892 pack (~20 seeds) \$3.49**

Lady Godiva

## Tomatillos

Enjoyed for their tangy flavor both fresh and cooked, they are essential for authentic Salsa Verde and other Mexican dishes. Start Tomatillos indoors, not more than 4 weeks before your last frost date. Plant seeds ¼ inch deep and keep evenly moist. Harvest when the fruit is plump and has split open its protective papery husk.

## VERDE

For salsa, tomatillos tone down the hotness of chiles and help blend the other flavors. The firm, green fruits are wrapped in a papery husk that splits open as the fruit reaches full size and maturity. Fruits are used fresh (tart) or roasted (sweet) for salsas, soups and dips.

**60–80 days to mature • 2–3 oz. fruit**  
**#01676 pack (~50 seeds) \$3.49**

Verde

## PURPLE DE MILPA

This prized traditional strain yields plump, 2 inch diameter fruits that ripen to a rich purple where the husk splits and exposes the skin to light. Delicious raw or stewed, tomatillos are the main ingredient in salsa verde.

**70–90 days to mature • 2–3 oz. fruit**  
**#01179 pack (~50 seeds) \$3.49**

Purple De Milpa

# Tomatoes

Tomatoes embody the joy of gardening more than any other fruit. We offer a wide selection of heirlooms and flavorful favorites to grow and enjoy. 'Heat tolerant' varieties are best for the south and early maturing varieties are best in the north. Tomatoes are best started indoors 4-6 weeks before your last frost date. Plant seeds 1/4 inch deep and keep evenly moist. Optimum soil temperature is 70-90°F, which can be achieved with a heating mat.

## RED SLICERS - BUSH

### OREGON SPRING

First to ripen, and known for its sweet, juicy flavor, this is the premier early season tomato variety for areas with cool summer nights or short seasons. The compact, bushy plants will also set fruit in hot weather. Staking is not required.

**60-70 days to mature • Determinate • Will set fruit in heat • 4-6 oz. fruit**

#01080 pack (~25 seeds) \$3.49

Oregon Spring

### LEGEND

This beautiful, full sized slicing tomato from Oregon State University has a well balanced sweet/acid flavor and is just right for sandwiches. The compact, disease resistant plants mature the uniform, nearly seedless fruit early and will also set fruit in the heat. Great for short seasons or containers.

**60-70 days to mature • Determinate • Will set fruit in heat • 6-9 oz. fruit**

#06004 pack (~25 seeds) \$3.49

Legend

### BURRELL'S SPECIAL

This classic tomato produces large, smooth, uniform slicing tomatoes perfect for burgers and sandwiches. Better tasting and just as productive as today's modern hybrids, with disease resistance and heat tolerance. Staking is optional.

**75 days to mature • 3-5 foot plant • Determinate • 6-8 oz. fruit**

#07896 pack (~25 seeds) \$3.49

Burrell's Special

### SUPER SIOUX

**RARE** An impressive, high yielding red slicing tomato with exquisite sweet, acid, earthy old time flavor. This medium sized variety from Nebraska is good for hot, dry areas and will set fruit in the heat. Staking is optional, but makes harvesting from the 4 foot long vines easier.

**75-80 days to mature • Semi-determinate • Will set fruit in heat • 4-6 oz. fruit**

#01613 pack (~25 seeds) \$3.49

#07143 bulk (~250 seeds) \$19.99

Super Sioux

### RED HOUSE FREE STANDING

**RARE** Firm, juicy and delicious, medium large, round red fruits perfect for slicing are produced on bushy plants that do not need staking. Unusual, broad leaves protect the fruit from sunburn. Heat tolerant and crack resistant.

**80-90 days to mature • Determinate • Will set fruit in heat • 6-8 oz. fruit**

#01083 pack (~25 seeds) \$3.49

Red House Free Standing

### CAL ACE

A very reliable producer of sweet, meaty, red beefsteak tomatoes on disease resistant, medium-sized plants. Sets fruit even in bad weather and ripens mid-early.

**85 days to mature • 3-5 ft. plant • Determinate • 7-9 oz. fruit**

#07897 pack (~25 seeds) \$3.49

Cal Ace

### MARTIAN GIANT

TA 🌱☀️

This large, juicy, scarlet red beefsteak has richly sweet, well balanced tomato flavor, and one slice is perfect for sandwiches or burgers. The compact, 3-4 foot vines are very productive, with up to 50 tomatoes each and set fruit over a long harvest period. Staking is optional.

**95 days to mature • Semi-determinate • 7-12 oz. fruit**

#04458 pack (~25 seeds) \$3.49

### CHANCHA F1

TA 🌱☀️

This large-fruited hybrid beefsteak tomato produces lots of tasty, firm, jumbo fruit perfect for burgers and sandwiches. Virus- and disease-resistant plants need staking.

**70-80 days to mature • Semi-determinate • 8-10 oz. fruit**

#07553 pack (~25 seeds) \$3.49

### QUERIDA F1

TA 🌱☀️

A reliable producer of flavorful, firm beefsteak tomatoes perfect for slicing and BLT sandwiches. The hybrid plants are virus- and disease-resistant. Staking is recommended.

**70-80 days to mature • Determinate • 7-9 oz. fruit**

#07541 pack (~25 seeds) \$3.49

### RED SLICERS - STAKING

#### CRIMSON SPRINTER

TA 🌱☀️

This deliciously juicy, medium size slicer matures early and tolerates cool, short season conditions, rewarding even northern gardeners with real tomato flavor. The smooth, round fruits are produced on vigorous vines that need staking.

**65-75 days to mature • Semi-determinate • 5-7 oz. fruit**

#05101 pack (~25 seeds) \$3.49

#### WISCONSIN 55

TA 🌱☀️

This medium-large red slicing tomato has firm, meaty, crack resistant fruits with outstanding flavor. Developed at the University of Wisconsin in the 1950's, this is one of the last improved open pollinated varieties before hybrids began to dominate the market. The tall vines need staking.

**65-70 days to mature • Indeterminate • 6-8 oz. fruit**

#05001 pack (~25 seeds) \$3.49

#### BEEFSTEAK

TA 🌱☀️

Meaty, bright red and juicy, this classic flat-round beefsteak tomato has rich, subtly acidic, traditional tomato flavor and is great on sandwiches, burgers and salads. The vigorous vines produce high yields of large, slightly ribbed fruits all season and need to be staked.

**75-85 days to mature • Indeterminate • 10-20 oz. fruit**

#06074 pack (~25 seeds) \$3.49

#07144 bulk (~250 seeds) \$19.99

### RED CALABASH

TA 🌱☀️

**HEIRLOOM • RARE** The delicious, thin skinned, sometimes ruffled fruits of this heirloom look like miniature beefsteak tomatoes. Traceable to Chiapas, Mexico, and documented by William Woys Weaver as appearing in a 1793 painting by Raphael Paele of Philadelphia. Staking is required.

**80-90 days to mature • Indeterminate • 2-3 oz. fruit**

#01195 pack (~25 seeds) \$3.49

#06731 bulk (~250 seeds) \$19.99

### COSTALUTO GENOVESE

TA 🌱☀️

**HEIRLOOM** This old Italian heirloom might look "ugly", but the slightly tart flavor of these medium size slicing tomatoes is absolutely delicious. The prolific vines are vigorous and lush, producing well in hot or cool weather and need to be staked.

**80-90 days to mature • Indeterminate • 8-10 oz. fruit**

#01594 pack (~25 seeds) \$3.49

#06720 bulk (~250 seeds) \$19.99

### PERON SPRAYLESS

TA 🌱☀️

This flavorful, prolific, midseason slicing tomato bears firm, bright red, mildly acidic, vitamin-rich fruits until frost. An extremely disease- and crack-resistant strain introduced from South America in 1951. The tall vines need staking.

**65-75 days to mature • Indeterminate • 6-8 oz. fruit**

#01193 pack (~25 seeds) \$3.49

Peron Sprayless

## SILETZ

One of the earliest full size slicing tomatoes, Siletz sets several flushes of delicious, deep red fruits even in cooler conditions. Enjoy them on sandwiches and salads.

**70–80 days to mature • Determinate • 7–10 oz. fruit**  
#07622 pack (~25 seeds) \$3.49

Siletz

## THESSALONIKI

**RARE** This rare tomato was developed in Greece and bears round, red fruit with mildly earthy, slightly acidic flavor. This flavorful variety also resists sun scald and cracking. The tall vines need staking.

**60–70 days to mature • Indeterminate • 5–7 oz. fruit**  
#01614 pack (~25 seeds) \$3.49]

Thessaloniki

## ZAPOTEC PLEATED

These medium-sized, pink-to-red heirloom tomatoes originally from southern Mexico are deeply pleated and have a rich earthy flavor. Enjoy them stuffed, baked or sliced.

**80–90 days to mature • Indeterminate • 6–8 oz. fruit**  
#07313 pack (~25 seeds) \$3.49

Zapotec Pleated

## COLORS - STAKING

### ARKANSAS TRAVELER

**HEIRLOOM** Incredibly delicious, this classic pink heirloom has traveled widely because of its solid dependability and balanced sweet/tart flavor. This variety tolerates high heat and humidity and is resistant to cracking. The disease resistant vines need to be staked.

**80–90 days to mature • Indeterminate • 5–7 oz. fruit**  
#01590 pack (~25 seeds) \$3.49

#06713 bulk (~250 seeds) \$19.99

Arkansas Traveler

## BRANDYWINE

**HEIRLOOM** The luscious, sweet flavor and meaty texture of these oversized pink heirloom tomatoes is rarely surpassed by other, mere mortal, varieties. The potato-leaved plants need a long mild growing season to ripen these thin-skinned beauties, but they are worth the wait. Staking is required.

**80–90 days to mature • Indeterminate • 10–16 oz. fruit**  
#01186 pack (~25 seeds) \$3.49

Brandywine

## TIGERELLA

**HEIRLOOM** These early maturing, tiger striped, 2" diameter tomatoes have a fine, tangy flavor and are fun to grow with kids. The vigorous plants produce huge crops of red tomatoes with orange stripes and need to be staked. In frost free zones, the plants might keep producing all winter!

**55–65 days to mature • Indeterminate • 4–6 oz. fruit**  
#01615 pack (~25 seeds) \$3.49

Tigerella

## PINK BERKELEY TIE DYE

This fantastically colored, large-fruited heirloom-style tomato has deep, sweet earthy flavor. The pink fruit with green stripes is from the wine country of northern California.

**90 days to mature • Indeterminate • 10–12 oz. fruit**  
#07877 pack (~25 seeds) \$3.49

Pink Berkeley Tie Dye

### MARVEL STRIPED

TA 🌱

**HEIRLOOM • RARE** These gorgeous, large, pleated yellow fruits have red striping from the blossom end and are deliciously sweet and juicy with few seeds. The vigorous, heat and drought tolerant vines need a long summer to mature and should be staked. Originally from the Zapotec people of southern Mexico.

**90-110 days to mature • Indeterminate • 10-16 oz. fruit**

#01190 pack (~25 seeds) \$3.49

### YELLOW PERFECTION

TA 🌱

**HEIRLOOM** This memorable, 2-3" diameter yellow salad tomato is juicy, thin skinned and perfectly round. Originally from an old British seed company, the early maturing fruits ripen well in cool or hot weather. Staking is recommended.

**70-75 days to mature • Indeterminate • 3-5 oz. fruit**

#01204 pack (~25 seeds) \$3.49

### PORK CHOP

TA 🌱

This large, yellow fruited, heirloom-style, low-acid tomato with richly sweet, mild flavor and thin, delicate skin is sure to please tomato-lovers with sensitive stomachs. Thick, meaty slices are wonderful on sandwiches, or cooked into a sunny sauce!

**90 days to mature • Indeterminate • 10-12 oz. fruit**

#07878 pack (~25 seeds) \$3.49

### PERSIMMON

TA 🌱

These medium to large, low-acid, persimmon-orange beauties are juicy and flavorful with tender skin and meaty flesh. One thick, succulent slice on toast makes a meal, but you'll want seconds. They also make gorgeous soups and sauces. The 5-6' vines need to be staked.

**75-80 days to mature • Indeterminate • 5-7 oz. fruit**

#04513 pack (~25 seeds) \$3.49

### DR. WYCHE'S

TA 🌱

**HEIRLOOM** This richly flavored, low-acid, heirloom produces large, golden yellow, meaty fruits with a slightly flattened shape, some green shoulders and few seeds. The tall vines have fairly sparse foliage, produce all season and need to be staked.

**80 days to mature • Indeterminate • 10-15 oz. fruit**

#05746 pack (~25 seeds) \$3.49

### AMANA ORANGE

TA 🌱

**HEIRLOOM** A single slice of these very large, late orange tomatoes with flavorful, low-acid, meaty flesh will cover a full piece of bread for your open faced tomato sandwich. This orange heirloom from the Amana Colonies in Iowa has tall vines that need staking.

**75-90 days to mature • Indeterminate • 12-16 oz. fruit**

#05100 pack (~25 seeds) \$3.49

### ORANGE QUEEN

TA 🌱

These juicy, delicious bright orange tomatoes have mild, low-acid flavor and few seeds. Their vibrant color brightens up salads and salsa and makes lovely low-acid sauce. The productive vines thrive in short-season, northern areas and are easier to pick when staked.

**85 days to mature • Indeterminate • 4-6 oz. fruit**

#01601 pack (~25 seeds) \$3.49

### CHEROKEE PURPLE

TA 🌱

**HEIRLOOM** This beautiful mahogany colored tomato with green shoulders and greenish-brown interior has deep, well balanced tomato flavor. The vigorous plants are more productive than most heirlooms, grow well in the South and need to be staked.

**80-90 days to mature • Indeterminate • 8-10 oz. fruit**

#05359 pack (~25 seeds) \$3.49

#06717 bulk (~250 seeds) \$19.99

### PAUL ROBESON

**HEIRLOOM** The earthy, perfectly balanced sweet/acid flavor of this rare "black" slicing tomato wins flavor contests every year. The fruit is maroon colored with green shoulders and meaty red flesh. The highly productive plants need to be staked.

**85-90 days to mature • Indeterminate • 8-10 oz. fruit**

#05805 pack (~25 seeds) \$3.49

#06728 bulk (~250 seeds) \$19.99

Paul Robeson

### ROMA PASTE

#### PASTE

Long renowned for savory sauces and pastes, this rich, meaty, plum-shaped fruit all ripens about the same time on compact vines that need no staking.

**75-85 days to mature • Determinate • 2-4 oz. fruit**

#01197 pack (~25 seeds) \$3.49

Roma Paste

### SAN MARZANO

**HEIRLOOM** The classic Italian paste tomato with rich, complex, sweet flavor essential for making traditional Napolitano sauces and whole canned tomatoes. The large plants produce loads of small, elongated red tomatoes late in the season and need to be staked.

**80-90 days to mature • Indeterminate • 1-3 oz. fruit**

#04760 pack (~25 seeds) \$3.49

San Marzano

### AMISH PASTE

**HEIRLOOM** The superior, full-bodied flavor and brilliant color of this large, meaty, heart-shaped Amish heirloom makes excellent sauce, paste and fresh salsa. The fruit ripens throughout the summer for a continuous supply. The vigorous vines need staking.

**80-90 days to mature • Indeterminate • 5-7 oz. fruit**

#05369 pack (~25 seeds) \$3.49

Amish Paste

### PLUM CHERRIES

#### BLUSH

These 2" long cherry tomatoes have an unforgettable tropical sweet flavor reminiscent of pineapple and are ready to pick when the pink blush starts to appear over the yellow background. Widely adapted with a heavy fruit set over an extended period, the tall vines need staking.

**75-80 days to mature • Indeterminate • 1-3 oz. fruit**

#06036 pack (~25 seeds) \$3.49

#06716 bulk (~250 seeds) \$19.99

Blush

### MAGLIA ROSA

**CONTAINER** This cherry tomato produces truly unique, mottled pink, long, egg-shaped fruits with bright, lightly sweet acidic flavor. Harvest just as the fruit turns light pink for optimum flavor. The small plants are perfect for growing in hanging baskets or patio containers.

**70-75 days to mature • Semi-determinate • 1-3 oz. fruit**

#05804 pack (~25 seeds) \$3.49

Maglia Rosa

### BLACK PLUM

**RARE** This unique Russian variety produces small, plum-shaped fruits with deep mahogany brown color and notably extra sweet flavor for salads. Slice them in half and dry to concentrate the flavor of summer for on-the-go snacking all year long. Stake the tall vines.

**75-80 days to mature • Indeterminate • 1-2 oz. fruit**

#01570 pack (~25 seeds) \$3.49

Black Plum

### CHERRIES

#### CHADWICK

Introduced by the late horticultural genius Alan Chadwick, this large, mouthwatering cherry tomato has a tangy, sweet favor. It produces huge yields and is disease resistant, making it a popular choice among gardeners.

**80-90 days to mature • Indeterminate • 1½ oz. fruit**

#01199 pack (~25 seeds) \$3.49

Chadwick

### FOX CHERRY

Prolific vines bear large, red cherry tomatoes with rich, full-bodied, mildly acidic flavor. Its outstanding color and flavor make this cherry variety one of the finest we've found in our trials. The healthy, vigorous vines need to be staked.

**80-90 days to mature • Indeterminate • 1½ oz. fruit**

#01085 pack (~25 seeds) \$3.49

Fox Cherry

## RED CHERRY

TA 🌱

This classic variety produces loads of delicious, juicy red cherry tomatoes that begin ripening early and keep producing all summer, north or south. The vigorous vines need to be staked.

**65-75 days to mature • Indeterminate • 1½ oz. fruit**  
#06075 pack (~25 seeds) \$3.49

Red Cherry

## RED PEAR

TA 🌱

**HEIRLOOM** This popular variety produces cute little red pear-shaped tomatoes with superb tangy flavor for salads and vegetable platters. The uniform, crack resistant fruit is produced all summer on productive vines that need to be staked. Try growing this together with Yellow Pear.

**70-75 days to mature • Indeterminate • 1 oz. fruit**  
#05806 pack (~25 seeds) \$3.49

Red Pear

## Turnips

Turnips are sweet and tangy, with delicious leafy greens that are very popular in southern cooking. Direct seed turnips 1/2 inch deep, 1 inch apart, and allow 12-18 inches between rows. Cover with sand or vermiculite to prevent soil crusting and keep seedbed evenly moist. Optimum soil temperature is between 65-85° F.

### PURPLE TOP WHITE GLOBE

HB 🌱/🌱

**HEIRLOOM** This nutritious heirloom turnip has smooth round roots that are bright purple above the ground and white below. Best eaten when young and tender (2" diameter roots) the flavor is mildly spicy like radishes. Greens & roots are good steamed or raw.

**45-60 days to mature • 2-4 in. roots**

#01477 pack (~350 seeds) \$3.49

Purple Top White Globe

### TOKYO MARKET

HB 🌱/🌱

This popular, early, pure white Japanese turnip is exceptionally crisp and fresh, with delicate mild sweet-radish flavor. Harvest young, when the roots are just 2 inches wide, for tender baby roots that can be chopped into fresh salads as well as the delicious green tops.

**30-40 days to mature • 2-4 in. roots**

#06028 pack (~350 seeds) \$3.49

Tokyo Market

## Wheatgrass

Wheatgrass is a popular choice for its health benefits and ease of growth. Soak seeds overnight for best results, then plant 1/32 inch deep. Sprouting occurs almost immediately and harvestable blades appear in 7-10 days. Can be grown indoors year round.

### WHEATGRASS

HB 🌱/🌱

Wheatgrass contains an abundance of vitamins, minerals and amino acids. The seeds germinate rapidly into beautiful greens that can be juiced or used to enhance the flavor of your favorite salad. Soak seeds overnight and sprout before planting.

**10 days to harvest • 7-10 inch shoots • Grow indoors year round**

#07744 pack (~500 seeds) \$3.49

Wheatgrass

### SEEDS OF CHANGE® PREMIUM GROWING MIX

Our custom blend of premium ingredients makes this organic potting soil an excellent mix for seed starting and transplanting. It is rich in earthworm castings, as well as a blend of beneficial micro organisms and mycorrhizal fungi to promote expansive root growth and efficient nutrient uptake. Ships to Contiguous US only, except for Washington, D.C.

#220-07058 (8 quart bag) \$7.99 🇺🇸

# Herbs

## Basil

Aromatic basil is a perfect companion plant with tomatoes. It is a warm season crop and is best started indoors 4-6 weeks before your last frost date. Plant seeds 1/4 inch deep and place on a heating mat or in a warm place (optimum soil temperature is 70-90°F). Transplant 12 inches apart, or in containers. It can be direct seeded outdoors throughout the summer to keep you in fresh pesto!

### ITALIAN BASIL

#### GENOVESE

This classic basil has mildly spicy flavor and sweet fragrance fantastic for seasonings, salads, garnishes and pesto. Pick the leaves frequently to encourage bushy new growth for a long harvest season.

**65-75 days to mature • 14-20 in. tall • Slow to bolt to seed**

**#06065 pack (~125 seeds) \$3.49**

Genovese

#### SUPER SWEET CHEN

The fully savoyed leaves, of this Italian large leaf basil are bright green and glossy, with a strong sweet aroma and outstanding flavor (better than all others we have grown) for making great pesto, Caprese salad or tomato sauce. This is a must for any kitchen garden.

**65-75 days to mature • 24-30 in. tall • Slow to bolt to seed**

**#05087 pack (~125 seeds) \$3.49**

Super Sweet Chen

#### GENOVESE SWEET

**HEIRLOOM** This classic pesto basil concentrates flavor with fragrance and graces sunny windowsills across America. The highly productive, bushy plants of Genovese Sweet are slow to bolt to seed, extending the harvest period.

**65-75 days to mature • 14-20 in. tall • Slow to bolt to seed**

**#01088 pack (~125 seeds) \$3.49**

Genovese Sweet

#### SWEET ITALIAN LARGE LEAF F1

Bursting with flavor and aroma these big plants thrive in the greenhouse or garden. Resistant to Fusarium Wilt, the plants yield well even under disease pressure.

**70-80 days to mature • 24-30 in. tall**

**#06452 pack (~125 seeds) \$3.49**

Sweet Italian Large Leaf F1

#### AROMA 2 F1

This Fusarium resistant basil has dark green, glossy 3 inch long leaves with refined appearance, excellent flavor and aroma. Try this one if you have had disease problems in the past. Does well in the greenhouse or outdoors.

**60-75 days to mature • 20-24 in. tall • Slow to bolt**

**#05919 pack (~125 seeds) \$3.49**

Aroma 2 F1

## EMILY F1

**CONTAINER** This compact and bushy basil has thick, tender, leaves with rich flavor that are very nice in salads or on top of pizza. Ideal for growing in containers, greenhouses or a sunny window sill.

**65–75 days to mature • 14–18 in. tall • Slow to bolt to seed**

#05969 pack (~125 seeds) \$3.49

TA 🌱☀️

## GREEK

These compact basil plants form a mound of small, green leaves with intense flavor, perfect for meats and savory dishes. Great for containers and edging garden borders.

**65–75 days to mature • 6–9 in. tall**

#07446 pack (~125 seeds) \$3.49

TA 🌱☀️

## FINO VERDE

**HEIRLOOM** This attractive, compact, small-leaved bush basil is ideal for containers or garden edging. It maintains its sweet flavor even after flowering for a long summer of enjoyment in salads and savory dishes. The flowers help support bees and other pollinators in your garden.

**60–70 days to mature • 10–16 in. tall**

#01451 pack (~125 seeds) \$3.49

TA 🌱☀️

## THAI

This basil offers an intensely sweet, anise-like fragrance with a hint of mint and citrus characteristic especially tasty in Thai cuisine. 1½-2½" leaves are green at the base of the plant and grow purple towards the flowers.

**75–80 days to mature • 16–20 in. tall**

#01703 pack (~125 seeds) \$3.49

TA 🌱☀️

## LEMON

**HEIRLOOM** Intensely fragrant 1½-2" leaves meld the delightful flavors of lemon and basil. Used to invigorate teas, and applied liberally in salads, dressings, potpourris, or to enhance any stir-fry, it is also known as "kemangi" in Indonesia.

**60–70 days to mature • 10–16 in. tall**

#01336 pack (~125 seeds) \$3.49

TA 🌱☀️

## RED RUBIN

The most consistent and high yielding deep purple basil we've found. Slightly puckered, 3" copper-tinged, purple leaves produce fine traditional flavor and aroma as well as beautiful lavender flowers. Red Rubin is an outstanding culinary or ornamental variety.

**60–70 days to mature • 10–16 in. tall**

#04448 pack (~125 seeds) \$3.49

TA 🌱☀️

## AROMATTO

The distinctive mix of green and purple leaves with tall purple flowers, long vase life and fragrant aroma make this the best basil to use in floral arrangements. Its sweet minty flavor is great in salads and summer pasta dishes.

**70–80 days to mature • 14–18 in. tall**

#05680 pack (~125 seeds) \$3.49

TA 🌱☀️🦋

## HOLY BASIL (TULSI)

TA 🌿☀️🌱

**HEIRLOOM • MEDICINAL** This herb is revered in the Hindu religion, and is also known as "sacred basil" or "Tulsi." A stimulating herb for our immune systems, use the sweet anise scented leaves and flowers in restorative teas, fresh or dried. The plants have fuzzy leaves and flowers loved by bees.

**65-75 days to mature • 8-12 in. tall**  
#01335 pack (~125 seeds) \$3.49

Holy

## Chives

The mild onion flavor of chives is popular on baked potatoes and in salads. Just a few plants can keep you supplied all year. Plant seeds 1/8 inch deep in spring or fall in starter pots and transplant 8-12 inches apart in full sun or part shade. Also makes a great container plant.

## GARDEN CHIVES

HP 🌿☀️🌱

**HEIRLOOM** This easy to grow, perennial heirloom grows in mounded clumps and can be tucked into any small space in the garden near the kitchen. Harvest the greens with mild onion flavor for use on baked potatoes, fish and egg dishes. The pretty purple flowers attract butterflies and bees.

**70-80 days to mature • USDA zones 3-9 • 12-24 in. plant**  
#07389 pack (~200 seeds) \$3.49

Garden Chives

## GARLIC CHIVES

HP 🌿☀️🌱

**HEIRLOOM • MEDICINAL** Flat leaf garlic chives have been used since the 16th century as a culinary herb to add a subtle garlic flavor when raw garlic might be overwhelming. They are also used in Chinese medicine for warming the kidneys and treating lower back and knee pain.

**70-80 days to mature • USDA zones 3-9 • 12 in. tall**  
#01346 pack (~200 seeds) \$3.49

Garlic Chives

## Cilantro

Cilantro is a hardy annual that adds distinctive flavor to Mexican and Asian dishes. Direct seed outdoors every few weeks from spring (after all danger of frost has passed) through summer. Plant seeds 1/4 inch deep, 1-2 inches apart in 4 inch wide bands, and keep evenly moist. Harvest in 6 weeks for all of your cooking needs.

## SLOW BOLT

HA 🌿☀️🌱

This cilantro was specifically bred to allow a longer harvest of the fresh, distinctively flavored leaves that are essential in Mexican and Asian cooking. If left to flower, it attracts beneficial insects and produces the dry seed, known as coriander.

**50-55 days to mature**

## Dill

Both the leafy greens and seeds of dill are used to flavor fish, potatoes and pickles. After harvesting the leafy greens, allow the plants to flower to attract beneficial insects and mature the seeds. Direct seed in the garden after the last frost and throughout the summer. Plant seeds 1/4 inch deep, 1-2 inches apart.

## DILL

HA/R 🌿☀️🌱

An attractive, medium tall variety with a lovely aroma and thicker leaves than other dills. This is the best one to grow for collecting seed for pickling and dried culinary use. Time your planting to be ready the same time as your pickling cucumbers.

**60-70 days to mature • 30-36 in. tall**  
#06069 pack (~425 seeds) \$3.49

Dill

## DUKAT

HA/R 🌿☀️🌱

Aromatic, never bitter or overly pungent, try this one for the sweetest of all dills. With a delicate fragrance, Dukat stays in the leaf stage longer than other varieties, allowing more time to harvest for cucumber and cream cheese sandwiches or creamy dill sauces used on fish.

**40-55 days to mature • 18-24 in. tall**  
#01710 pack (~425 seeds) \$3.49

Dukat

# Hyssop

These beautiful plants attract butterflies and bees to the garden, and are wonderful in bouquets and herb teas. Start seeds indoors in the spring or direct seed outside when soil temperature is above 60°F. Plant seeds 1/4 inch deep and keep moist. They germinate in 2-3 weeks. Transplant 12 inches apart in full sun to partial shade.

## HYSSOP

HP 🌱🌞🌿

**MEDICINAL** This pretty, upright plant with purple flower spikes and aromatic, pine-musk scented leaves is a favorite of bees. It has been used since biblical times for purification and healing to aid digestion and relieve asthma. The essential oil is used in perfumes.

**USDA Zones 4-9 • 24-36 in. tall**

#01347 pack (~200 seeds) \$3.49

Hyssop

## KOREAN LICORICE MINT

HP 🌱🌞🌿

**MEDICINAL** Aromatic, mint-licorice flavored leaves with purple flower spikes attract bees and beautify the garden. Taller, with thicker leaves than its cousin Anise Hyssop, it can be used to make sweet, soothing herbal tea to ease digestion and calm cold symptoms.

**USDA Zones 5-9 • 24-48 in. tall**

#01567 pack (~200 seeds) \$3.49

Korean Licorice Mint

# Marjoram

Sweeter than oregano, with similar uses for flavoring savory dishes. Start seeds indoors in spring or late summer. Plant the tiny seeds shallowly, 1/8 inch deep, and be patient. Transplant 12 inches apart in the garden or in containers. Prefers full sun and good drainage.

## SWEET MARJORAM

TA/HP 🌱🌞

**HEIRLOOM** Sweet marjoram leaves and shoots are widely used in seasoning. It is similar in appearance to oregano (sometimes used as a substitute), but its taste is sweeter and milder. Use fresh all year or harvest for drying when the plants bloom in late June through August.

**USDA zones 8-10 • 60-80 days to mature • 12-24 in. tall**

#01771 pack (~200 seeds) \$3.49

Sweet Marjoram

## SYRIACA ZAATAR

TA/HP 🌱🌞

A wild relative of Mediterranean Oregano with flavor hints of thyme and sweet marjoram to enliven the senses. Minced leaves make fresh tomatoes tasty and are delicious in a feta cheese-chopped tomato dip. The soft gray-green leaves are produced on a semi-upright plant.

**USDA zones 8-10 • 90-100 days to mature • 12-24 in. tall**

#05364 pack (~200 seeds) \$3.49

Syriaca Zaatar

# Parsley

This breath-freshening herb is widely used as a garnish and flavoring in soups, salads and main dishes. Start seeds indoors early in the spring. Plant seeds 1/8-1/4 inch deep and keep moist. May take 3-4 weeks to germinate. Transplant 8-12 inches apart. Harvest outer sprigs throughout the summer and fall.

## FOREST GREEN

HB 🌱🌞/🌿

This finely curled and compact garnish herb has long, stiff, upright stems with dark green, double and tripled curled leaves. Use it fresh or dried for flavoring savory dishes. This compact plant does well in containers and the garden and overwinters in most places.

**USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall**

#01102 pack (~150 seeds) \$3.49

Forest Green

## ROOT POUCHES ARE IDEAL FOR SMALL HERB GARDENS

## ROOT POUCHES

Root Pouches are light weight, yet durable pots that are easy to store when not in use and extremely tough when filled with soil and planted. Expand your garden with these mobile pots made of thick and breathable fabric. They are ideal for quick and easy herb gardens.

#220-08143 (3 gallon) \$4.99

#220-08144 (5 gallon) \$5.99

#220-08145 (7 gallon) \$6.99

## KRAUSA F1

HB 🌱/☀️/🌧️

Wonderful whether used fresh or dried, this dense, triple curled parsley retains its crispness and bright green color long after harvest. Use it as a seasoning or palate-cleansing garnish, or as a beautiful addition to flower bouquets.

USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall  
#05924 pack (~150 seeds) \$3.49

## ITALIAN FLAT LEAF

HB 🌱/☀️/🌧️

**HEIRLOOM • MEDICINAL** This tried and true heirloom parsley has large, flat leaves with concentrated flavor for fresh seasoning, drying, or freezing. Full of vitamins, nutrients and anti-oxidants, parsley is an under-appreciated super-food to incorporate into your healthy diet. Freshens the breath too!

USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall

#01360 pack (~150 seeds) \$3.49

#07156 bulk (~1,500 seeds) \$19.99

## GIANT OF ITALY

HB 🌱/☀️/🌧️

**CONTAINER** The extra large, dark green, flat leaves of this dependable, high yielding parsley have excellent flavor fresh or dried for all of your culinary uses including tabouli salad and roasted new potatoes. This variety does especially well in containers.

USDA zones 4-9 • 75-85 days to mature • 12-18 in. tall

#06466 pack (~150 seeds) \$3.49

## Sage

Used in stuffing, poultry dishes and sausage, sage is a garden staple. Start seeds indoors in early spring. Plant seeds shallowly, 1/8-1/4 inch deep, keep moist. Germination may take up to 21 days at soil temperatures between 60-75°F. Transplant 12-18 inches apart into well drained soil in full sun to part shade. Also works well in containers.

### GARDEN SAGE

HP 🌱/☀️/🌧️

**HEIRLOOM • MEDICINAL** Classic sage has been grown for centuries as a culinary and medicinal herb. The fragrant, soft, gray-green leaves are used fresh or dried for seasoning poultry, sausages and breads. The hardy plants look beautiful in the garden and the abundant purple flowers attract bees.

USDA zones 5-9 • 24-36 in. tall

#01367 pack (~100 seeds) \$3.49

## Thyme

This classic culinary and ornamental herb is perfect for rock gardens and can be used in teas during the winter to fend off colds. Start the tiny seeds indoors in early spring. Plant seeds shallowly, 1/8 inch deep and keep moist. Seeds take 2-3 weeks to germinate at soil temperatures between 60-75°F. Transplant in a well drained location in the full sun. Harvest and dry or use fresh.

### SUMMER THYME

TP 🌱/☀️/🌧️

**MEDICINAL** This classic culinary herb has a strong savory aroma and flavor for all of your recipes. Thyme looks great in rock gardens and pots, attracts bees and helpful pollinators, and makes an excellent herb tea to help get you through winter cold season.

USDA zones 6-9 • 6-12 in. tall

#08093 pack (~200 seeds) \$3.49

### HERB MILL

The Herb Mill is a perfect way to mince herbs. Simply place your herbs into the column and turn the handle. Stainless steel blades will produce ready to use garnish & spices for your favorite dish.

#220-07738

\$9.99

### TRIPLE BLADE HERB SCISSORS

These triple blade herb scissors have three high precision, sharp stainless steel blades. Cut, snip and mince herbs and scallions while retaining flavorful oils. Large nonslip ergonomic comfort handles make cutting fast and easy.

#220-07736 (7.5" long) \$12.99

# GARDEN-IN-A-POUCH

\$4.99

### GARDEN-IN-A-POUCH, CHIVES

Grow versatile Garden Chives right out of this pouch. Simply add about 2 cups of water to expand the Wonder Soil wafers, plant seeds, cover pouch with greenhouse dome to assist germination and watch your chives grow. Harvest after about 9-12 weeks.

#220-08154

\$4.99

# Flowers

## Alyssum

### WHITE SWEET ALYSSUM

HA 🌱 🌞 🌿

The pure white, honey scented blossoms of this low-growing garden favorite attract beneficial insects including syrphid flies that eat aphids. Plant freely throughout the garden to control pests. Blooming from late spring through fall, it thrives in both cool and hot weather.

50-60 days to flower • 3-6 in. tall

#04537 pack (~150 seeds) \$3.49

#06499 bulk (~1,500 seeds) \$19.99

White Sweet Alyssum

## Amaranth

### ELEPHANT HEAD

TA/R 🌱 🌞 🌿

**HEIRLOOM** The large, deep red flowers of this dramatic heirloom evoke images of elephants' trunks trumpeting toward the sky. The tiny seeds are edible popped or ground into flour.

60-70 days to flower • 4-5 ft. tall

#07293 pack (~150 seeds) \$3.49

Elephant Head

### LOVE-LIES-BLEEDING

TA/R 🌱 🌞 🌿

**HEIRLOOM** The tall, branching plants of this easy to grow annual are adorned with graceful ropes of cascading, deep red, lavish, plumes that look stunning in the garden or in fresh or dried bouquets.

60-70 days to flower • 4-5 ft. tall

#01811 pack (~150 seeds) \$3.49

Love-Lies-Bleeding

## Bells of Ireland

### BELLS OF IRELAND

HA 🌱 🌞 🌿

**HEIRLOOM** Looking like a tower of lime green bells, this old fashioned favorite adds an architectural element to the garden and is captivating in fresh or dried bouquets. It prefers mild summer climates or spring and fall elsewhere.

100 days to flower • 2-3 ft. tall • 1-2 ft. flower spikes

#01735 pack (~50 seeds) \$3.49

Bells of Ireland

## Calendula

### ORANGE ZINGER

HA/R 🌱 🌞 🌿

**MEDICINAL** The vibrant orange daisy-like flowers of this frost-tolerant plant brighten the garden in spring and well into fall. The edible petals beautify salads, the long stems are ideal for bouquets and the rich aroma and high resin content are prized for skin-soothing salves.

85-95 days to flower • 1-2 ft. tall

#04450 pack (~125 seeds) \$3.49

Orange Zinger

## Celosia

### CELOSIA MIX

TA/R 🌱 🌞 🌿

This variety produces dramatic plumes and combs in brilliant shades of red, burgundy, pink, yellow and orange that make superb fresh or dried arrangements.

75 days to flower • 2-3 ft. tall

#06453 pack (~150 seeds) \$3.49

Celosia Mix

# Centaurea

## BACHELOR BUTTONS

HA/R    

**HEIRLOOM** These brilliant blue flowers bloom prolifically and provide a stunning accent in bouquets, fresh or dried. They tolerate poorer soils and look great in the garden as a mass planting that attracts butterflies, bees and birds.

80-90 days to flower • 2-3 ft. tall

#01734 pack (~100 seeds) \$3.49

Bachelor Buttons

## GRANDPA OTT'S

TA/R  

**HEIRLOOM** This wonderful morning glory has rich deep-purple blooms with glowing pink throats that adorn vigorous climbing vines from late summer to frost. This heirloom seed from Bavaria was handed down by "Grandpa Ott" for future generations to enjoy.

85-95 days to flower • 6-15 ft. tall vines

#04495 pack (~25 seeds) \$3.49

Grandpa Ott's

# Morning Glory

## HEAVENLY BLUE

TA/R   

Brighten up the morning with these delicate, "heavenly" blue blooms. Plant the climbing vines with attractive heart-shaped leaves along a sunny wall or trellis to provide cooling shade.

80-90 days to flower • 8-15 foot tall vines

#01227 pack (~25 seeds) \$3.49

Heavenly Blue

# Nasturtium

## NASTURTIIUM MIX

TA   

These edible flowers have a peppery taste and come in various shades of orange, yellow, peach and cream. The flowers bloom during cool spring and fall weather and can be used as companion plants to deter cucumber beetles, squash bugs and caterpillars.

55-65 days to flower • 12-16 in. tall

#04747 pack (~20 seeds) \$3.49

Nasturtium Mix

# Nigella

## LOVE-IN-A-MIST

HA/R   

Pleasing blue flowers sit atop a feathery, fine leaved, fast growing plant that thrives in cool weather. The flowers are followed by papery textured, inflated seed pods with "horns" (Devil-in-the-Bush) that look great in dried flower bouquets.

90-100 days to flower • 18-24 in. tall

#01409 pack (~100 seeds) \$3.49

Love-in-a-Mist

# Sage

## TEXAS HUMMINGBIRD

TP/HA   

Showy spikes of nectar rich scarlet flowers attract bees and hummingbirds to the garden. Blooming continuously from mid-summer to fall, this beautiful native American plant prefers sandy, drier soil and may reseed itself.

USDA Zones 8-10 • 75 days to flower • 2-3 ft. tall

#01862 pack (~125 seeds) \$3.49

#07187 bulk (~1,250 seeds) \$19.99

Texas Hummingbird

# Snapdragon

## **SCARLET GIANT**

HA/TP 🌱🌻🌿

This extra tall snapdragon has dramatic spikes of deep scarlet flowers sure to dazzle even the most discriminating flower lover. It makes an outstanding cut flower, tolerates some frost for late season color and is also an excellent container plant.

*Perennial in zones 8-10 • 105-110 days to flower • 2-3 ft. tall*

#05083 pack (~150 seeds) \$3.49

#07188 bulk (~1,500 seeds) \$19.99

Scarlet Giant

## **ROCKET MIX**

HA/TP 🌱🌻🌿

A cool season bloomer, the mix of pink, white, yellow and burgundy flower spikes provide beautiful color in spring and fall. Grow in the garden or in containers for long lasting cut flowers. The plants tolerate light frosts, are perennial in USDA Zones 8-10, and are grown as annuals elsewhere.

*Perennial in zones 8-10 • 105-110 days to flower • 2-3 ft. tall*

#08131 pack (~150 seeds) \$3.49

Rocket Mix

# Sunflowers

## **ZOHAR F1**

TA/R 🌱🌻🌿

Rich golden-orange petals surround a dark center on these 4-6" diameter sunflowers that produce one single, upward-facing flower head per plant. Their pollenless quality extends the vase life of this professional cut flower variety and is a boon for allergy sufferers.

*50-55 days to flower • 4-5 ft. tall*

#05876 pack (~25 seeds) \$3.49

#06513 bulk (~250 seeds) \$19.99

Zohar F1

## **ENDURANCE**

TA/R 🌱🌻🌿

**RARE** Enjoy up to 50 branches per plant, each ending in a cluster of 2-5 flowers. This prolific variety is from a spontaneous cross of Israeli and Silverleaf sunflowers.

*85-95 days to flower • 6-9 ft. tall*

#01688 pack (~25 seeds) \$3.49

Endurance

## **TARAHUMARA WHITE SHELL**

**TRADITIONAL • RARE** Each robust stalk of this breathtaking, solid gold sunflower produces one enormous head filled with delicious, edible white shelled seeds. The tall plants are best planted at the back or edges of the garden. Grow it for yourself, but share some with the birds!

*85-100 days to flower • 7-10 ft. tall*

#01075 pack (~25 seeds) \$3.49

#07193 bulk (~250 seeds) \$19.99

Tarahumara

## **TIGER'S EYE MIX**

TA/R 🌱🌻🌿

This mix offers a rare selection of intriguing sunflowers with bronze, gold and maroon double petaled centers with single petaled outer rays and an occasional fully single or fully double individual. It makes a beautifully unusual addition to your garden.

*85-100 days to flower • 6-8 ft. tall*

#01342 pack (~25 seeds) \$3.49

Tiger's Eye Mix

## GARDEN IN COMFORT WITH THESE GREAT ITEMS...

### **GOOSEBERRY KNEELER PAD**

Kneelo™ Kneeler pad allows you to work in cushioned comfort for prolonged periods of time. Whether you are gardening, decorating, scrubbing the floor or at a picnic, don't forget your Kneelo™.

#220-07833 (20"l x 12"w) \$29.99

### **GOOSEBERRY KNEE PADS (2 PADS)**

These knee pads have a unique shape which gives optimal flexibility when kneeling, standing and walking. One size fits all, as they have soft adjustable Velcro straps so no constant digging in the back of your legs.

#220-07834 \$29.99

# Zinnia

## PERSIAN CARPET

TA 🌱 🌸 🌺 🌻

**RARE** A magical rich tapestry of color to liven up your borders, this unique dwarf variety produces fascinating bicolor, dahlia-like blooms all summer long. It is excellent in patio containers or on sunny balconies.

**60-70 days to flower • 12-15 in. tall**

#01751 pack (~75 seeds) **\$3.49**

Persian Carpet

## PEGGY'S DELIGHT

TA 🌱 🌸 🌺 🌻

A square-edged version of the traditional zinnia, the flowers of this fascinating variety come in a vast array of forms and colors reminiscent of show dahlias and mums. Each flower is unique with subtle tones of pink, orange, gold and apricot. It is truly delightful!

**80-90 days to flower • 3-4 ft. tall**

#05086 pack (~75 seeds) **\$3.49**

#06515 bulk (~750 seeds) **\$19.99**

Peggy's Delight

## CUT AND COME AGAIN MIX

TA 🌱 🌸 🌺 🌻

A gorgeous blend of double and single 2-3" blooms in a dazzling array of colors ranging from white to shades of pink, orange and red. These summer favorites bloom all summer for fresh cut bouquets. The more you cut, the more they bloom!

**60-70 days to flower • 3 ft. tall**

#04497 pack (~75 seeds) **\$3.49**

#06514 bulk (~750 seeds) **\$19.99**

Cut and Come Again

# Composting

Composting is a great way to reduce waste going to landfill, all while creating the most glorious nutrition that your garden will ever see. Compost and you'll feel a great sense of pride while you organically feed your garden.

## HOME COMPOSTING MADE EASY

The world's most popular compost guide. Easy step-by-step illustrated instructions help you divert over 30% of your total waste from landfills, simply by composting kitchen and garden waste.

#220-07705 **\$4.99**

## STAINLESS STEEL COMPOST PAIL

Made from durable stainless steel, this compost pail is the perfect eco-friendly counter-top solution for storing food scraps and vegetable trimmings for several days. A tight seal keeps odors locked in and includes two charcoal filters for clean organic recycling. 1 gallon capacity. Dishwasher safe.

#220-07040

(11.5" h x 7" dia.) **\$49.99**

## CHARCOAL COMPOST FILTERS

Charcoal compost filters are designed to fit your stainless steel compost pail. Replace your filters every 6 months or sooner if odors are detected.

#220-07668 **\$3.99**

## COMPOST THERMOMETER

Properly manage your compost pile by regularly taking its temperature. A drop in temperature can mean the pile is becoming anaerobic and should be aerated. Increase pile size to provide higher temperatures or decrease pile size to keep temperatures from becoming too high.

#220-06837 **\$34.99**

## CEDAR COMPOSTER

This handmade Cedar Composter serves as a near rodent-proof container for your composting food scraps. It is made with specific dimensions to ensure proper oxygen flow through the compost. For best result, have 2 compost bins going at the same time so that you always have rich nutritious compost ready for your hungry plants.

(29" l x 29" w x 29" h)

#230-07676 **\$399.99** 🇺🇸 🚚 📦

# Live Plants

## Asparagus

Choose a permanent location for this long-lived, widely adapted perennial. Be sure soil has warmed to 50°F before planting out your 1-2 year old crowns. In the first year, allow the spears to grow and fern out without harvesting to establish strong plants. Ships Mid-Feb. to Mid-May. Shipments based on grow zones - may be delayed by weather conditions. Contiguous U.S. only. 🇺🇸

### UC 157 F1

HP 🌱🌞🌱

This robust, disease resistant variety from the University of California produces smooth, green, medium diameter spears a bit earlier than other varieties and does best in well-drained soils. Its high quality and yield sets the standard for asparagus from coast to coast. Developed at University of California Riverside in 1978.

#231-07212 (10 crowns) \$19.99

UC 157 F1

### JERSEY KNIGHT F1

HP 🌱🌞🌱

This excellent variety from Rutgers University does well in heavier, clay soils. It produces flavorful, medium to large diameter green spears with purple tips that are delicious steamed or grilled.

#231-07210 (10 crowns) \$19.99

Jersey Knight F1

### JERSEY GIANT F1

HP 🌱🌞🌱

This all male hybrid produces no seeds, only delicious huge green spears that show off purple highlights. Known for very large yields, this variety resists fusarium wilt, crown rot and rust. Performs best in colder climates.

#231-06863 (10 crowns) \$19.99

Jersey Giant F1

### PURPLE PASSION

HP 🌱🌞🌱

These burgundy-colored spears with a creamy green interior are sweeter and more tender than green types, but slightly lower yielding. The large diameter, bright purple spears are festive on a raw vegetable platter, but turn green when steamed. Go ahead and add a little color to your next dinner.

#231-07940 (10 crowns)  
\$19.99

## Horseradish

Choose a permanent location for this long-lived perennial. Plant root cuttings within a week of receipt and after danger of frost has passed. Create a furrow 6" deep. Place roots 18" apart in the furrow and cover with 2-3 inches of soil. Wait until plants are 1 year old to make your first harvest. Ships Mid-Feb. to Mid-May. Shipments based on grow zones - may be delayed by weather conditions. Contiguous U.S. only. 🇺🇸

### HORSERADISH

HP 🌱🌞🌱

Make your own sweet and hot horseradish sauce. Our certified organic root cuttings will get you started with your own patch of this long-lived, easy to grow perennial. USDA Zones 3-8.

#231-06900 (5 roots) \$24.99

Horseradish

# Garlic

Softneck varieties are both cold and heat tolerant, can be grown all over the country, are good for braiding and store up to 10 months. Elephant Garlic is larger, milder, and does not store as long. Mulch keeps soil warm in the north and cool in the south for best results. Plant after the first fall frost and 4-6 weeks before the ground freezes. Garlic ships Mid-Jan. to April for early spring planting and Sept. to Oct. for preferred fall planting. Spring shipping time based on grow zones - may be delayed by weather conditions. Contiguous U.S. only. 🇺🇸

## EARLY ITALIAN PURPLE

HB 🌱

Large bulbs with numerous cloves wrapped in white skin with purple stripes. Vigorous, widely adapted plants are relatively heat tolerant, store well, and are good for braiding. This softneck is widely grown in the "Garlic Capital" of Gilroy, CA.

#231-06473 (½ lb. ~ 40 cloves) **\$12.49**

#231-06474 (1 lb. ~ 80 cloves) **\$19.99**

Early Italian Purple

## NOOKTA ROSE

HB 🌱

This heirloom garlic from San Juan Island has a strong, pungent flavor. The medium to large size bulbs each have 15-24 cloves which are streaked red on mahogany beneath the white outer wrapper. Has a beautiful appearance when braided & stores for several months.

#231-06983 (½ lb. ~ 40 cloves) **\$12.49**

#231-06984 (1 lb. ~ 80 cloves) **\$19.99**

Nookta Rose

## INCHELIUM RED

HB 🌱

Discovered on the Colville Indian Reservation in WA, this vigorous strain has a mild, lingering flavor that sharpens in storage. The large, 3 inch diameter bulbs form 9-18 cloves per bulb and can be stored for several months. Widely adapted from north to south.

#231-06981 (½ lb. ~ 40 cloves) **\$12.49**

#231-06982 (1 lb. ~ 80 cloves) **\$19.99**

Incheliium Red

## ITALIAN LATE

HB 🌱

Light colored wrappers cover the fat, round cloves of this flavorful garlic that is good for braiding. The extra-tight skin makes this variety especially good for long storage. It is smaller and later to mature than Early Italian Purple, but it keeps longer, so plant both for a longer harvest.

#231-06985 (½ lb. ~ 40 cloves) **\$12.49**

#231-06986 (1 lb. ~ 80 cloves) **\$19.99**

Italian Late

## SILVER ROSE

HB 🌱

Smooth, bright white bulb wrappers protect the beautiful rose-colored cloves of this long-storing variety. The softnecks and white bulbs make this a great variety for braiding. This variety is very popular in Western and Southern United States, France and Italy.

#231-06475 (½ lb. ~ 40 cloves) **\$12.49**

#231-06476 (1 lb. ~ 80 cloves) **\$19.99**

Silver Rose

## ELEPHANT

HB 🌱

As its name suggests, Elephant garlic is much larger than regular garlic, with mild, sweet flavor. Grow it the same way as regular garlic, but use it fairly soon after harvest because it does not keep as long. The individual cloves can be as large as a whole bulb of regular garlic, requiring less peeling.

#231-06987 (½ lb. ~ 6 cloves) **\$12.49**

#231-06988 (1 lb. ~ 12 cloves) **\$19.99**

Elephant

# Onion Sets

Easy-to-grow onion sets (mini-bulbs) provide 2 distinct advantages over seed sown onions: you don't have to worry about day-length sensitivity, and the fast growing sets are easier to keep weeded. The key to success with onion sets is to plant them as early as possible, ideally about 3-4 weeks before your last spring frost date, about the same time you plant spring peas. Plant sets 1 inch deep and 4 inches apart in rows 12-18 inches apart. Then grow and harvest as you would seed grown onions. Onion Sets ship according to your USDA Zone from Mid-Feb. to May. Shipping time based on grow zones - may be delayed by weather conditions. Contiguous U.S. only. 🇺🇸

## YELLOW ROCK

HB 🌱

This reliable heirloom storage variety produces nice big flattened yellow onions with bronze-yellow skin and mild, sweet flavor for all of your savory recipes. Grow in long rows to produce enough to last all winter.

#231-08048 (60 mini bulbs) **\$9.99**

#231-08049 (100 mini bulbs) **\$12.99**

Yellow Rock

## RED WETHERSFIELD

HB 🌱

This heirloom red onion yields large, flattened bulbs with thin, reddish-purple skins, pink-tinged white flesh and nice strong pungent flavor, perfect for burgers and salads.

#231-08050 (60 mini bulbs) **\$9.99**

#231-08051 (100 mini bulbs) **\$12.99**

Red Wethersfield

## WHITE EBENEZER

HB 🌱

This heirloom, multi-purpose white onion will produce nice medium size bulbs, long white-shanked scallions or small-bulbed pickling onions. Quantities are limited, so be sure to order early.

#231-08052 (60 mini bulbs) **\$9.99**

#231-08053 (100 mini bulbs) **\$12.99**

White Ebenezer

# Shallot Sets

The subtle, sweet flavor of shallots lends a wonderful richness to savory meat, fish and vegetable dishes that cannot be achieved any other way. Fall planted crops yield twice as much as early spring crops. Plant them about 2-4 weeks before hard winter sets in. Protected by good thick mulch and snow cover, the cold hardy sets (down to -25 F) will burst into rapid growth when the temperatures warm up in the spring. Plant in fertile, well-drained soil with the root side down and the top 1 inch below the soil surface. Space 4-6" apart in rows 18" apart. Available for spring shipping Mid-Feb. to May and fall shipping Sept. to Oct. Shipments based on grow zones - may be delayed by weather conditions. Contiguous U.S. only. 🍷

## DUTCH YELLOW

HB 🌱

Dutch Yellow has golden brown skins and mild white flesh. Keeps up to six months in proper storage.

#231-08060 (½ lb. ~ 12-16 mini bulbs) **\$14.99**

#231-08061 (1 lb. ~ 24-32 mini bulbs) **\$21.99**

## HOLLAND RED

HB 🌱

Holland Red shallots have coppery-red skins and slightly pink colored flesh with a sweet, mild flavor.

#231-08062 (½ lb. ~ 12-16 mini bulbs) **\$14.99**

#231-08063 (1 lb. ~ 24-32 mini bulbs) **\$21.99**

# Potatoes

Potatoes provide more usable protein per acre than any other crop in the world, as well as fully balanced, nearly complete nutritional content. Plant certified, disease-free seed potatoes in early to mid-spring, 2-4 weeks before and after the last frost, but protect new shoots from frost if necessary by covering with soil or floating row covers. Our mini-tubers are the perfect size for planting whole and do not need to be cut. Available for spring shipping Feb. to May (all Zones) and fall shipping Oct. to Nov. (Zones 8-10 Only). Shipments may be delayed by weather conditions. Contiguous U.S. only. 🍷

## YUKON GOLD

TA 🌱

This round tuber has smooth, thin yellow skin with pink coloring around shallow eyes and yellow flesh. It provides excellent flavor when baked, boiled or made into salads or fries. An all around great selection if you're looking for a multi-use potato.

#231-07767 (10 mini-tubers) **\$15.99**

#231-07768 (20 mini-tubers) **\$23.99**

## YUKON GEM

TA 🌱

The first blight resistant potato has round to oval tubers with light-yellow skin, a pink splash around the eyes and golden flesh. An excellent all-purpose potato, this mid-season variety is every bit as good as its parent, Yukon Gold, with much higher yields.

#231-08027 (10 mini-tubers) **\$15.99**

#231-08028 (20 mini-tubers) **\$23.99**

## GERMAN BUTTERBALL

TA 🌱

Its smooth, thick, golden and netted skin and butter yellow flesh are characteristics of this small to medium oblong tuber with outstanding taste. Great for hash browns, fries, steaming or baking, and it stores well.

#231-07782 (10 mini-tubers) **\$15.99**

#231-07783 (20 mini-tubers) **\$23.99**

## YELLOW FINN

TA 🌱

This potato has an unusual pear shape, deep yellow-tan skin and waxy yellow flesh. The taste is natural butter-like, and is good boiled, baked, fried or included in soups. This potato is the #1 yellow, our best-selling late season variety.

#231-07791 (10 mini-tubers) **\$15.99**

#231-07792 (20 mini-tubers) **\$23.99**

## CHIEFTAIN

TA 🌱

A smooth red-skinned slightly oval tuber with shallow eyes and white flesh, medium size and very good flavor. Resistant to scab and late blight. It does better in clay soils than other reds. High overall yields from a spreading plant with attractive light-violet blossoms.

#231-07773 (10 mini-tubers) **\$15.99**

#231-07774 (20 mini-tubers) **\$23.99**

## RED PONTIAC

TA 🌱

#1 red every year! This large round potato has thin, dark-red skins, deep eyes, and crisp white flesh. Excellent for mashing and boiling, but not baking. Heat-tolerant, long-storing, and high-yielding, grows in heavy soil.

#231-07785 (10 mini-tubers) **\$15.99**

#231-07786 (20 mini-tubers) **\$23.99**

## RED NORLAND

TA 🌱

This productive, mid-season potato has dark red skin and white flesh. Makes good potato salad, keeps well, has good disease resistance and moderate scab resistance.

#231-07776 (10 mini-tubers) **\$15.99**

#231-07777 (20 mini-tubers) **\$23.99**

## CHERRY RED

TA 🌱

Small to medium sized tubers, bright medium to dark red skin and attractive white flesh. This one is always a good producer and a tidy setter. Lift up the "hen" and there is the "nest" of potatoes, tightly clustered in one place.

#231-07985 (10 mini-tubers) **\$15.99**

#231-07986 (20 mini-tubers) **\$23.99**

Cherry Red

### CAL WHITE

This elongated, white-fleshed potato has smooth white skin and is good for all cooking styles. Highly productive, it has set new yield records in CA tests.

#231-07779 (10 mini-tubers) **\$15.99**

#231-07780 (20 mini-tubers) **\$23.99**

Cal White

### RUSSET NORKOTAH

Tuber with smooth, red brown skin, shallow eyes and white flesh. Excellent for baking, frying or boiling. It is scab resistant and provides dependable yields.

#231-07770 (10 mini-tubers) **\$15.99**

#231-07771 (20 mini-tubers) **\$23.99**

Russet Norkotah

### RUSSET BURBANK

Russet skin, shallow eyes, and white flesh are characteristic of this long-oval russet. Great taste baked, fried or boiled. Long-storing, scab-resistant potato needs a consistent moisture supply. Most widely grown potato in the U.S.

#231-07797 (10 mini-tubers) **\$15.99**

#231-07798 (20 mini-tubers) **\$23.99**

Russet Burbank

### HUCKLEBERRY

This brand new variety is perfect for all of those purple and gold fans out there! These medium-sized round to oval tubers have dark purple skin and yellow flesh and are excellent baked, boiled, or fried.

#231-08030 (10 mini-tubers) **\$15.99**

#231-08031 (20 mini-tubers) **\$23.99**

Huckleberry

### VIKING PURPLE

The gorgeous purple skin of this early maturing potato is swirled with splashes of neon pink. The flesh is dense and moist and holds together well when boiled for potato salad. This all-purpose variety is Scab resistant with high yield potential and long storage quality. The flavor sweetens during storage.

#231-07988 (10 mini-tubers) **\$15.99**

#231-07989 (20 mini-tubers) **\$23.99**

Viking Purple

### PURPLE MAJESTY

Solid purple inside and out, this surprising mid-season potato has excellent eating quality. Combine with All Red and Viking Purple to make a festive red, white and blue potato salad!

#231-07788 (10 mini-tubers) **\$15.99**

#231-07789 (20 mini-tubers) **\$23.99**

Purple Majesty

### ALL RED

These medium to extra-large tubers have smooth, brilliant red skin with medium shallow eyes and pink swirled flesh that retains its color after cooking. This variety is good for steaming or boiling and makes an attractive and unusual potato salad.

#231-08033 (10 mini-tubers) **\$15.99**

#231-08034 (20 mini-tubers) **\$23.99**

All Red

## Fingerling Potatoes

Fingerling potatoes have a long, slender shape and tend to have a more firm, waxy texture than regular potatoes. They also grow long, vigorous, disease resistant vines, set the fruit over a longer period of time, and don't size up until very late in the season. If your season is long enough you can expect excellent yields. Plant them 12-18 inches apart to give them room to grow.

Russian Banana

### RUSSIAN BANANA

Excellent for potato salad with firm yellow flesh and thin skin, this popular, all-purpose fingerling is disease resistant and produces heavy yields of medium-sized tubers favored for their flavor and smooth texture.

#231-08036 (10 mini-tubers) **\$15.99**

#231-08037 (20 mini-tubers) **\$23.99**

Butterfinger

### BUTTERFINGER

A crescent shaped fingerling potato with thin, lightly russeted skin and nutty-tasting yellow flesh. Flavorful when steamed, boiled or sautéed, this variety is firm when cooked, and holds its shape in potato salads and fries.

#231-08039 (10 mini-tubers) **\$15.99**

#231-08040 (20 mini-tubers) **\$23.99**

Rose Finn Apple

### ROSE FINN APPLE

One of the best tasting fingerling potatoes, Rose Finn Apple produces medium-sized, well clustered tubers with rosy-buff skin and deep yellow flesh blushed with red. Excellent for potato salad or roasted over the coals. It has vigorous vines that should not be overcrowded.

#231-08045 (10 mini-tubers) **\$15.99**

#231-08046 (20 mini-tubers) **\$23.99**

### FRENCH FINGERLING

French Fingerling is a gourmet quality heirloom potato with smooth red skin and yellow flesh with internal pink patterning. It produces medium to large tubers that keep well and are great boiled or sautéed.

#231-08042 (10 mini-tubers) **\$15.99**

#231-08043 (20 mini-tubers) **\$23.99**

French Fingerling

# Fruit Trees

Our robust two-year old trees are approximately 4 feet tall and are shipped bare root. They should bear fruit in 2-4 years and grow 14-16 feet tall. For best pollination, grow three different varieties in close proximity to each other. The ideal planting time is early spring. All varieties are semi-dwarf and certified organic. Quantities are limited. Shipments begin Mid-January and run through early April. Planting instructions are included and describe how to store your tree until planting time. Shipping may be delayed by extreme cold. Trees shipped FedEx Ground. Physical address required. Contiguous U.S. only. 🍷

## Dessert and Cooking Apple Trees

Apples selected for fresh eating are known as 'Dessert' apples and have a nice appearance, crisp texture and unique sweet, tart and juicy flavors. Cooking apples are often suited for specific uses. Apples that hold their shape when cooked are preferred for tarts and pies, while those that break down are excellent for applesauce. Thin the fruits in the spring to encourage large fruit size.

### ANTONOVKA

USDA ZONES 4-9

**HEIRLOOM** This Russian heirloom is popular in Eastern Europe for fresh eating and baking. Allow the late-ripening fruit to change from green to full yellow to enjoy the intense sweet-tart flavor. This disease resistant variety grows true from seed, so expand your orchard by planting seeds from this fruit. Plant near another mid-season bloomer for good pollination.  
#231-08101 \$49.99

Antonovka

### ARKANSAS BLACK

USDA ZONES 5-10

Strikingly beautiful, dark purplish-red fruits turn nearly black at maturity. Very crisp flesh with sharp flavor that improves with age. Resistant to cedar-apple rust and some resistance to scab and fireblight. Will tolerate low desert heat. Consider Grimes Golden and/or Newtown Pippin for pollination.  
#231-07923 \$49.99

Arkansas Black

### ASHMEAD'S KERNEL

USDA ZONES 5-9

**HEIRLOOM** An old English russet apple with a crisp nutty snap. The fruit explodes with champagne-sherbert juice infused with a scent of orange blossom. Some resistance to scab and cedar apple rust.  
#231-06843 \$49.99

Ashmead's Kernel

### CALVILLE BLANC

USDA ZONES 5-9

The gourmet culinary apple of France, excellent for tarts. Uniquely shaped medium to large size fruit, yellow skin with light red flush. Flesh is tender, sweet, spicy, flavorful, with a banana-like aroma and has more vitamin C than an orange.  
#231-07247 \$49.99

Calville Blanc

### COX'S ORANGE PIPPIN

USDA ZONES 4-10

This variety is highly esteemed in England as a dessert apple. It has crisp, aromatic, yellow flesh with spicy overtones. The best variety for espalier.  
#231-06848 \$49.99

Cox's Orange Pippin

### FUJI

USDA ZONES 6-10

A tall rectangular medium sized apple with yellowish green skin and orange red flush with darker stripes. The flesh is white, firm and crunchy, with excellent fruity flavor. This variety needs warm fall weather for best flavor and offers some cedar apple rust resistance.  
#231-07248 \$49.99

Fuji

### GOLDEN DELICIOUS

USDA ZONES 4-10

This heirloom apple has a mild, very sweet distinctive flavor. The smooth, green-gold fruit ripens late in the fall and is superb for fresh eating, cider, baking, applesauce and apple butter. This self-fertile variety can be planted solo and also makes a great pollinator.  
#231-08024 \$49.99

Golden Delicious

### GRANNY SMITH

USDA ZONES 6-10

**HEIRLOOM** Crisp, with moderately sweet and tart flavor, this familiar grass green apple has superb fresh eating quality and never gets mushy when baked. Its tart flavor lends itself to good cider too! This Australian heirloom needs a long season to fully mature very late in the season and holds well in the heat. Plant near another mid-season bloomer for good pollination.  
#231-08103 \$49.99

Granny Smith

### JONATHAN

USDA ZONES 4-9

**HEIRLOOM** One of the best dessert and pie apples, Jonathan produces juicy, medium size, red to striped-red fruits with sprightly, subacid flavor. The early-blooming self-fertile trees are naturally small, and bear fruit early, annually and prolifically. The fruit ripens late in the season, freezes well, and stores well through the winter. Ours is the original, not the redder hybrid.  
#231-08106 \$49.99

Jonathan

## SPITZENBURG

USDA ZONES 5-10

**HEIRLOOM** This was Thomas Jefferson's favorite apple. The fruit is great off the tree, but flavor radically improves in storage. The flesh is tinged yellow, firm, aromatic with complex flavor.  
#231-06856 \$49.99

## VICTORIA LIMBERTWIG

USDA ZONES 5-10

The juicy, rich and sweet flavor of this fantastic dessert apple provides many weeks of fresh eating beginning in September. It has purple skin with white dots and crisp yellow flesh. It is a good keeper.  
#231-06857 \$49.99

## WHITE PEARMAIN

USDA ZONES 5-10

**HEIRLOOM** The White Pearmain is the oldest known English apple. The mildly sweet and pleasantly aromatic flesh is firm, fine-grained and crisp. It is a self-fertile variety that also serves as a great pollinator for other apple trees.  
#231-06858 \$49.99

## Cider Apple Trees

Cider apples have higher sugar levels to encourage fermentation, as well as varying levels of acid, tannins, bitter and dry elements that add sharp or spicy tones to balance the sweet juice for increased depth and complexity. The secret is to combine apples with different qualities to achieve a unique flavor profile.

## HARRISON

USDA ZONES 5-9

**HEIRLOOM** One of the finest apples for cider making, the firm yellow flesh has a pleasantly dry, sprightly flavor that makes an extremely dark, rich cider. The scab resistant fruit ripens late in the season and is also good for fresh eating, juice and winter storage.  
#231-08104 \$49.99

## KING DAVID

USDA ZONES 5-10

**HEIRLOOM** A versatile variety that is wonderful for fresh eating, pies, applesauce and cider. Allow the deep red apples to hang on the tree until they fully ripen late in the season to enjoy the juicy, almost spicy, crisp fruits.  
#231-08107 \$49.99

## ROXBURY RUSSET

USDA ZONES 5-9

**HEIRLOOM** This excellent old American cider apple is also good for eating fresh. Remarkable for its amount of sugar, this apple has firm, slightly coarse, yellow-white flesh. This variety is resistant to scab and cedar apple rust.  
#231-06854 \$49.99

## TREMLETT'S BITTER

USDA ZONES 5-9

**HEIRLOOM** This bittersweet hard cider apple high in tannins is grown specifically for blending with other sweet and sharp cider apples to create a delicious spicy hard cider.  
#231-08109 \$49.99

## WICKSON

USDA ZONES 5-9

Perfect cider apple: spicy, with extraordinary sweetness and a pronounced acid tang. Size is that of a large crab apple. Reputed to make wonderful champagne cider and excellent fresh off the tree.  
#231-07927 \$49.99

## Rhubarb

Rhubarb can live for 10-15 years or more when treated well. The crowns (roots) you receive are ready to plant immediately. Refrigerate if planting must be delayed. Set crowns with bud side up, positioning the bud 1-2 inches below the soil level, allowing 3 feet between crowns. Do not harvest the first year of planting. Ships April-May to Contiguous U.S. only.

## VICTORIA

HP 

Rhubarb requires minimal care once established and Victoria is very hardy and vigorous. A heavy producer of top-quality, long stalks with smooth ribs excellent for pies and jams. Juicy and sweet, the thick stalks have a pale green to rosy red sheen.  
*Plants can be 3-5 ft. wide • 5-6 ft. stalks*  
#231-06866 (3 crowns) \$21.99

# Merchandise

## Seed Starting

### MAPLE POT MAKER

It's easy and fun to create an endless supply of 2-½" starter pots from old newspaper. A great eco-conscious alternative to plastic or peat, the paper pots can be put right in the garden at transplanting time. #220-06809 \$24.99

### PAPER PEAT POTS

All natural paper fiber pots are made from recycled material and work great when moving seed plugs to a larger starting pot. Choose from one of three great styles.

A. 220-07696 (3.5" x 9.5" tray, 5 trays of 10 pots) \$4.99

B. 220-07851 (3" pots, 15 total pots) \$4.99

C. 220-07850 (11" x 22" tray w/dome, 36 pots) \$12.99

### RAPID ROOTRAINERS

An advanced seed starting system, Rapid rootrainers allow plants to form straight, full root systems without becoming pot bound. Open the cells at transplanting time for easy removal of seedlings. 32 reusable, 3" deep cells, holding tray and clear lid.

#220-08017 \$15.99

### GERMINATION STATION WITH HEAT MAT, 72 CELL TRAY AND DOME

This hot house with UL-listed waterproof heated mat is ideal to cradle your fragile clippings and seedlings in protective warmth. The hot house heat mat never gets too hot that it'll scorch your plants and even comes with instructions printed right on the mat.

#230-06805 (2.5" dome, tray & mat) \$45.99

#230-06806 (7" dome, tray & mat - shown) \$49.99

### WONDER SOIL

Each compressed 10 - 12 lb. Wonder Soil Expand and Plant Cube measures just 11" x 11" x 5" and expands with water to 2 ½ cu ft. Made of compressed natural coir fiber, worm castings, mycorrhizae, kelp and humus. The block below expands to fill a wheelbarrow.

#220-08056 (10 lbs., expands to 2.5 cu.ft.) \$19.99

### SEEDS OF CHANGE® PREMIUM GROWING MIX

Our custom blend of premium ingredients makes this organic potting soil an excellent mix for seed starting and transplanting. It is rich in earthworm castings, as well as a blend of beneficial micro organisms and mycorrhizal fungi to promote expansive root growth and efficient nutrient uptake. (Cannot ship to D.C.).

#220-07058 (8 quart bag) \$7.99

### SMALL WOOD LABELS

Our 6 inch wood garden markers are ideal for keeping track of all your new plantings. Small enough for seed starting trays, sturdy enough to last the season, stylish enough to make you happy.

#220-07024

(24 labels per pack) \$4.99

### LARGE WOOD LABELS

These large sturdy plant labels are ideal for marking rows when sturdiness and visibility are a priority. 12 inches long with Seeds of Change® logo. A Seeds of Change® Best Seller!

#220-07941 (10 labels per pack) \$4.99

#220-07941-a (30 labels per pack) \$12.99

### METAL PLANT LABELS (SET OF 6)

This set of 6 metal plant markers will enhance the beauty of your garden. Includes one permanent marker.

#220-07720

(4"w x 7.6"h) \$9.99

### GARDEN MARKING PEN

Fast drying and permanent ink are ideal when working in the garden. Our markers are fade and water resistant. Use them on plant labels, containers, plastic, wood, ceramic and metal.

#220-07020 \$3.99

# Heat, Light, Water

## SEEDLING HEAT MATS

Safe and easy to use! Maintaining adequate soil temperature is vital for successful germination of seeds. Our mats will warm the rooting area for 10-20° F over ambient temperature. Easy to follow instructions are printed on the mat. Thermostat sold separately.

#230-07843 (Windowsill Mat 3" x 20"~7.3w) \$25.99

#230-06802 (Small Mat 9" x 19.5"~17w) \$35.99

#230-06803 (Medium Mat 20" x 20"~45w) \$55.99

#230-06804 (Large Mat 20" x 48"~107w) \$89.99

#230-07842 (Jumbo Mat 21" x 60"~180w) \$139.99

#230-06807 (Thermostat - below right) \$45.99

## JUMP START GROW LIGHT SYSTEM

Start with seeds and watch them grow! The internal reflective finish directs more light to plants for maximum growth! Comes complete with T5 high output grow light fixture, bulb, and 6' grounded cord with on/off switch, plus a simple toggle clamp for easy lamp height adjustment and quick connectors for super easy assembly – no tools required. 2' or 4' versions.

2 Ft. Grow Light System (24"h x 18.5"w x 26"l)

#230-07050 \$89.99   

4 Ft. Grow Light System (31"h x 18.5"w x 50"l)

#230-07839 \$109.99   

## 150W DAYSPOT GROW LIGHT WITH FIXTURE

Our convenient EnviroGro Grow Light Kit is ready to grow, complete with an easy-to-use clamp-on fixture and bulb. Grow an herb garden right in your kitchen and overwinter vegetable plants anywhere in your home.

#230-07845 \$29.99   

## DRAMM FOGG-IT NOZZLE & SHUT OFF VALVE

The Dramm Fogg-It Nozzle is a professional quality brass nozzle. The three mist jets create a gentle "fog" that is ideal for seedlings and fragile plants. Pair with the shut off valve for a perfect watering solution for delicate plants and seedlings.

#220-07023 Fogg It Nozzle \$19.99

#220-07687 Shut Off Valve \$29.99

## ULTIMATE HOSE NOZZLE

This is the best hose nozzle on the market, period! It is incredibly easy to operate and is constructed with high quality, rugged materials. This fireman style nozzle features a wide comfortable grip and provides a strong, steady stream every time. Enjoy an array of streams from strong and steady to gentle and cascading. Get one (or two) today. You won't regret it.

#220-07082 \$24.99

# Tools

## SOIL TEST KIT

This simple to use kit includes 10 tests each for pH, Nitrogen, Phosphorus and Potash. Soil testing is an easy, fun and fast way to achieve better growing results from your gardening efforts.

#220-06840 \$25.99

## SOIL PH METER

A quick indicator of soil pH. Includes pH references for over 400 plants. Easy to use with helpful recommendations for organically raising or lowering soil pH.

#220-06839 \$24.99

## SOIL THERMOMETER

Accurate temperature is essential for knowing when to sow and transplant seedlings. The soil thermometer is easy to use and always accurate.

#220-06838

\$12.99

## HULA HOE

The best all purpose weeding tool in our lineup. The blade remains under the surface of the soil as you push away and pull back, cutting weeds efficiently in both directions without actually lifting the tool. Swiss made 7" spring steel blade.

#230-06795 (60" long)

\$74.99   

### DEWIT FORGED TROWEL

This high quality, DeWit Dutch hand trowel is made of tempered steel that holds a sharp edge and doesn't bend. The wood handle fits comfortably in the hand. #220-08010 (12" long by 3" wide) **\$29.99**

### DEWIT 3-TINE CULTIVATOR

The 3-tine cultivator is perfect for loosening the soil surface to blend in compost and fertilizer or scratch away young weed seedlings. #220-08011 (11.5" long by 3" wide) **\$29.99**

### DEWIT ROCK N ROOT TROWEL

This heavy-duty, narrow transplanting trowel from DeWit is perfect for planting bulbs and seedlings. #220-08012 (16" long with handle) **\$24.99**

### DIBBER

Our steel dibber is the perfect tool for seed and bulb planting. Simple to use and saves your fingers and hands from wear and tear. A great tool for making straight lines when direct seeding. #220-07836 (12" long) **\$16.99**

### SHEEP SHEAR

Double bow, very sharp sheep shears good for trimming grass in hard to reach places. With no mechanical parts to break, this tool will last a lifetime. #220-07828 (12.5" long) **\$26.99**

### SMALL ARS FOLDING SAW

This 4" folding saw features fast, easy pull action, remarkably clean cuts, rust resistant and a wipe clean blade. Small tooth pattern for fine cuts. #220-07827 **\$29.99**

### FELCO PRUNER #2

The original is still the best. The Felco #2 is the most recommended bypass pruner in the world! The strong, solid-forged aluminum-alloy handles have easy-to-grip covers and are nearly unbreakable. The Swiss precision-made, hardened, replaceable cutting blade is as sharp as a scalpel. The anvil blade with a sap groove never needs sharpening and should last a lifetime if properly cared for. #220-07063 **\$59.99**

### FELCO HARVESTING SHEARS #310

The Felco #310 is the ultimate tool for the avid vegetable gardener. This general fruit and vegetable harvesting shear is strong, lightweight and has a hallmark Felco strong and sharp blade. #220-07064 **\$29.99**

### FELCO F300 PRUNING SHEARS FELCO SHARPENING TOOL FELCO POCKET HOLSTER

Harvesting flowers and herbs is a joy when you're cutting with the Felco F300 pruning shears. The strong and durable metal clip make the Felco Pocket Holster the perfect companion to any of your Felco pruners. The Felco sharpener is perfect for keeping your tools in tip-top shape.

#220-07740 F300 Pruner **\$29.99**

#220-07066 Sharpener (3.9" long) **\$29.99**

#220-07065 Holster (6.5" x 3") **\$13.99**

### NEJIRI GAMA HOE

This Japanese hoe is the essential weeder of gardeners. It is strong, but lightweight, and remarkably easy to use. The sharp blade and long handle make it easy to access even the hardest to reach spots. #220-06796 (18" long) **\$22.99**

### HORI HORI GARDEN KNIFE

This Japanese-crafted Hori knife is an infinitely useful tool designed for a lifetime of cutting, digging, sawing, trimming and transplanting. It is equipped with sharp, smooth and serrated blades, measuring marks and a precise point which will come in handy every time you're in the garden. #220-06797 (7" blade) **\$39.99**

### NOBORI GAMMA SICKLE

This workhorse of a tool is great for slicing through the toughest garden debris. Also effective for clearing brush, brambles and wood perennials. The tapered handle is designed to ensure a secure grip and the forged blade holds a sharp edge. 20.5" overall length, 6.5" x 2" blade. #220-06798 (20.5" long) **\$69.99**

### STEEL GARDEN HOE

This Asian Style hoe makes quick work of the most persistent weeds. The 6" steel blade allows you to reach into the tightest places. The sturdy 15" ash handle means years of dependable service. #220-07263 (15"l x 6"w) **\$19.99**

### WIDGER TROWEL

A unique cross between a widger, trowel and dibber. Great tool for planting small bulbs, seeds, re-potting, plus many more uses. Powder coated steel with wooden handle with inset rubber grip. #220-07835 (13" overall length) **\$12.99**

## WEST COUNTY MUD GLOVE

These comfortable, yet durable, garden gloves are made with 100% nylon lining with Nitrile coating on the palm. The liner allows the hands to breath, while the Nitrile coating provides great gripping ability.

#220-07854 S (Orange/Gray) **\$4.99**

#220-07855 M (Orange/Gray) **\$4.99**

#220-07856 L (Orange/Gray) **\$4.99**

#220-07841 XL (Orange/Gray) **\$4.99**

## WEST COUNTY WORK GLOVE

West County doesn't just make gloves, they turn old plastic bottles into some of the finest gardening gloves available today. You will love the durability, look and feel of your gloves all while helping to sustain our planet. Women's gloves available in "Stem" green; Men's in "Charcoal" gray.

### Women's Gloves

#220-07074 S (Stem Green) **\$24.99**

#220-07075 M (Stem Green) **\$24.99**

#220-07076 L (Stem Green) **\$24.99**

### Men's Gloves

#220-07077 M (Charcoal) **\$24.99**

#220-07078 L (Charcoal) **\$24.99**

#220-07079 XL (Charcoal) **\$24.99**

#220-07080 XXL (Charcoal) **\$24.99**

## GREEN TIE TAPE

Our green tie tape has countless uses in the garden. Each roll is 1/2" wide x 150' long.

#220-07698 (one roll) **\$3.99**

## TWINE IN DISPENSER CAN

Our all purpose natural garden twine is made of 3 ply jute twine. Each can contains 325 feet of twine and comes in a rugged tin can with a built in cutting blade.

#220-07021

**\$7.99**

## WHEELZBARROW

This amazing invention is revolutionizing the way Americans work on outdoor projects. No more heavy lifting! No more balancing acts! No more plywood ramps! The rear two wheels do the tiresome lifting and balancing, so that you do not have to.

#230-07711 **\$199.99**

## SOFT PLANT TIES

Made from a unique, U.V. stabilized rubber compound around a rust-proof galvanized steel core, these multi-purpose garden ties are ideal for delicate plant stems like tomatoes, or assembling garden structures. Easy to bend, shape and cut.

#220-08064 (slim soft tie - tan, 26.5') **\$5.99**

#220-07848 (soft tie -green, 15') **\$5.99**

## VINE & VEGGIE TRELLIS

This light weight, easy to use trellis is ideal for supporting your vegetables and makes harvesting easier. Expands to cover 5 ft. by 10 ft.

#220-07022 **\$6.99**

## HOLLOW LEG HARVEST BAG

Put The Gardener's Hollow Leg on at the start of your day's work in the garden and you'll never want to be without it! Convenient - it's right where you need it all the time. Efficient - no more extra steps in the yard cleanup process. Handy - provides an adjustable belt that will accommodate your clipper holster and there's even a pocket for your cell phone or iPod. Comfortable - the adjustable belt expands from 30 to 52 inches. Forest Green or Lime Green color-depending on availability.

#220-07869 **\$29.99**

## HAND HELD SPRAYER

Our simple hand held sprayer is just what you need to control pests and disease in your organic garden. Combine this sprayer with our complete line of pest controls and fungicides to ensure a happy and healthy garden. Our heavy duty nozzle helps ensure a consistent spray.

#220-07865

(26 oz. bottle) **\$3.99**

## BACK RELIEVER SPRAYER

This convenient home garden sprayer is perfect for mixing your organic liquid fertilizers and pest controls. Features a 25" telescopic wand for extended reach, easy-to-use pressure pump, thumb operated control valve and in-line filter.

#220-08019 (2 gal.) **\$49.99**

# Fertilizers

## ALL PURPOSE

A gentle, non-burning fertilizer perfect for vegetables, herbs, flowers and container plants. Use this one to spread liberally on the garden beds in the spring to prepare the soil for planting (covers ~100 sq. ft.), or to fertilize container plants (1-2 tbsp/sq.ft. of soil).

#220-07026 (6 lb. box) **\$12.99**

## BIO-FISH BLEND

A nutrient-rich fertilizer especially for heavy feeders like corn, tomatoes, cabbage, broccoli and cauliflower. The extra supply of nitrogen and phosphorus in this mix helps stimulate vigorous growth, beautiful blooms, and plentiful fruit. Sprinkle some in each transplanting hole, and use as a side-dressing through the first half of the growing cycle.

#220-07027 (5 lb. box) **\$12.99**

## BIO-LIVE

A well-balanced organic fertilizer mix infused with a generous amount of beneficial bacteria and mycorrhizal fungi to enliven the living soil community in your garden and, in turn, stimulate plant root growth, vigor and optimum plant development. We especially recommend this mix for improving poor, depleted soils.

#220-07028 (5 lb. box) **\$12.99**

## FISH BONE MEAL

Fish Bone meal is a marine based source of phosphorus and calcium ideal for stimulating big, bright blooms on your ornamentals and enhanced fruit production on your annuals, shrubs and fruit trees. Phosphorus is essential for fruiting, flowering, strong root growth and quality seed development.

#220-07029 (6 lb. box) **\$12.99**

## STARTER MIX

Starter Mix 3-3-3 is the perfect way to get your delicate young starts and new seedlings in the ground and ready to thrive. In addition to essential primary and secondary plant nutrients, we've added a diverse mix of beneficial soil microorganisms to ensure successful planting, expansive root development and vigorous early growth.

#220-08147 (5 lb. box) **\$12.99**

## WONDER WORM

Odorless, non-toxic earthworm castings are one of nature's purest forms of humus and are used as a gentle, non-burning soil conditioner to add essential nutrients and beneficial life to the soil. Add up to 20% Wonder Worm to soil mixes or new garden beds to stimulate root growth and increase the ability of your plants to resist drought, disease, fungus and harmful insects.

#220-07033 (1 kilo bag) **\$10.99**

## FISH POWDER

Hydrolyzed Fish Powder is rich in fast acting nitrogen and is the ultimate organic fertilizer for dramatically stimulating plant growth. Mix 2-4 TBSP/gallon of water to apply around the base of established garden plants or container grown plants during the first half of their growing cycle.

#220-07683 (1 lb. bag) **\$12.99**

## SOLUBLE SEAWEED POWDER

Maxicrop Soluble Seaweed Powder contains a large complex of chelated minor elements to help lessen or correct minor nutrient deficiencies in plants. It also contains important biological growth stimulants that support strong seed germination, root development and general growth.

#220-07684 (10.7 oz. bag) **\$25.99**

## SOLUBLE ROOT GROWTH MYCO

Beneficial mycorrhizal fungi colonize plant roots to help them take up soil nutrients and water, effectively increasing plant growth and yields, as well as reducing transplant shock and drought stress. Highly recommended for use when planting our apple trees and other perennials.

#220-07032 (4 oz. bag) **\$13.99**

# Pest Controls

## SAFER ORGANIC INSECT SOAP

This clear organic, liquid soap is composed of fatty acids and potassium salts and is labeled to control aphids, white-flies, and spider mites on fruits, vegetables and ornamentals. Safe for bees, birds, animals and people. Each 16 oz. of concentrate makes 6 gallons of spray.

#220-07034 (16 oz.) \$17.99

## MONTEREY GARDEN INSECT SPRAY

For control of foliage feeding worms (caterpillars), thrips, fire ants and other listed pests. Contains spinosad, produced by fermentation. Can be used on vegetables, fruit crops & ornamentals. Controls caterpillars as well as leafminers, thrips, beetles and more!

#220-07692 (1 pint) \$25.99

## SAFER BIONEEM

BioNEEM is a botanical concentrate that kills and repels over 30 common pests. Effective against aphids, caterpillars, gypsy moths, hornworms, leaf hoppers, leaf miners, Mexican bean beetles, mealy bugs, thrips, whiteflies and other pests. Mix 1 part BioNEEM to 40 parts water and apply every 7-10 days. Use at least 3 times to break pests' reproductive cycles.

#220-07689 (16 oz.) \$24.99

## SAFER GARDEN DUST

This pest control product is very effective in killing caterpillars and worms, including corn earworm, bollworm, armyworm, diamondback moth, green cloverworm, hornworms, loopers, melonworm, pickleworm, tomato fruitworm, tobacco budworm, salt marsh caterpillar, mimosa webworm, and imported cabbageworm! The Safer® Brand Garden Dust utilizes bacillus thuringiensis (var. kurstaki) which, once ingested by the wayward pest, kills them within a few days.

#220-07036 (8 oz.) \$12.99

## BI-CARB OLD FASHIONED FUNGICIDE

Listed by the Organic Materials Review Institute (OMRI) for use in organic production, Bi-Carb's active ingredient is a microencapsulated form of good old baking soda. It works by disrupting the potassium ion balance in the fungus that causes powdery mildew, causing the cell walls to collapse. Use it for a natural control of powdery mildew on roses, vegetables, herbs, grapes, fruit trees, and ornamentals.

#220-07691 (4 oz. bottle) \$12.99

## SAFER GARDEN FUNGICIDE

Contains 12% elemental sulfur which controls fungal diseases on fruits, vegetables and flowers. Effective against powdery mildew, rust, scab, brown rot, rose black spot and much more. Works great on roses and tomatoes! Each 16 oz. of concentrate makes 4 gallons of spray. OMRI listed for use in organic production.

#220-07035 (16 oz.) \$17.99

## SLUGGO® SHAKER CAN

Sluggo® contains iron phosphate to rid your garden of slugs and snails. It is safe to use around pets and wildlife. This product is labeled for use in vegetable gardens. An OMRI listed organic product, it breaks down into fertilizer! Snail and slug control at its best. 1 lb. covers approximately 1,000sq ft.

#220-07037 (1 lb.) \$15.99

#220-07852 (2.5 lb.) \$24.99

## STICKY THIRP LEAFMINER TRAP

Special hue of blue catches thrips and leafminers. Non-poisonous and weatherproof.

#220-07038

(5 traps) \$8.99

## STICKY APHID WHITEFLY TRAP

Special hue of yellow catches aphids, whiteflies, leafhoppers and moths. Non-poisonous and weatherproof.

#220-07039

(5 traps) \$8.99

## BIRD SCARE FLASH TAPE

Shiny, silver-red tape protects fruit, trees, vines and vegetables from even the most persistent birds. Simply tie to fences, tree limbs or stakes to create a safe and effective deterrent.

#220-07699 (290 ft.) \$7.99

## OWL SCARECROW

Life-like, Natural Enemy Scarecrow helps repel birds and pests. 16" tall and hand-painted for maximum realism.

#220-07849 \$29.99

## BIRD-X NETTING

Protect your fruit trees and vegetables from thieving birds and other garden pests. The netting is made of durable 0.75" polypropylene mesh with UV inhibitors to maintain strength. The netting measures 7' x 20'.

#220-07685 **\$12.99**

## DEER-X FENCING

Temporary fencing protects shrubs, trees and vegetable gardens from destructive deer. Strong and durable 0.75" mesh provides an easy and affordable alternative to metal chicken wire. This 7' x 100' product will be perfect for your hydroponic or horticulture gardening needs.

#220-07686 **\$29.99**

## MICROMESH PEST & WIND BARRIER

This durable, finely woven fabric protects crops from insects, small animals, pests and wind. Allows sunlight, watering and easy access. Pack of 2 includes bamboo supports and covers up to 26 row feet.

#220-08013 (157"l x 27.6"h) **\$28.99**

## GUARD'N EYES

Bird-scaring balloon has "eyes" that scare away pests and protect gardens. Easy to set up, the constant motion helps keep unwanted critters at bay.

#220-07853 **\$12.99**

## GIANT NET EASY TUNNEL

Provides shading from strong sunlight and protection from insects, birds and other pests. It reduces the risk of drought by conserving moisture. Control the ventilation in the tunnel by closing the ends with the built-in draw string. Perfect for protecting summer crops.

#220-07872 (10'1" x 24" w x 18" h) **\$29.99**

## GIANT MICROMESH EASY TUNNEL

The ultimate insect barrier for your fruit and vegetables. This tunnel will protect your growing crops from all types of pests, without the use of chemicals. The micromesh cover is ultra-fine to keep out Cabbage Root Flies, Carrot Flies, Aphids, and other pests while still allowing air and moisture to circulate.

#220-07873 (10'1" x 24" w x 18" h) **\$27.99**

# Tomato Accessories

## TOMATO CAGE

The 4' Tomato Tower with support rings is a versatile garden accessory and works well as a stand-alone tomato cage that can be used in your garden. It allows the flexibility of adding only the number of rings you need as your plants grow.

#220-07847 **\$9.99**

## 59 INCH TOWER TRELLIS

Each tower has four high grade rot-resistant wood posts that are easy to set up and will last for years when stored during the winter. These delightful trellises have extra pre-drilled holes for your string. A great way to add height to your garden.

#230-07881 (set of 2 towers; 59" tall) **\$29.99**

#230-07882 (set of 4 towers; 59" tall) **\$49.99**

## 48 & 59 INCH VEGETABLE TRELLIS

Great for climbing plants, tomatoes and cucumbers, these rot resistant wood trellises are both functional and great looking. Proudly Made in the USA.

#230-07880 (set of 2 trellises; 48" X 13½") **\$49.99**

#230-07879 (set of 2 trellises; 59" X 13½") **\$59.99**

48" or 59" Vegetable Trellis (2 trellises per order)

# Containers

## MINI FARM BOX RAISED BEDS

Planters from Mini Farm Box are the perfect way to get your organic garden started. Made from 100% natural cedar wood, these easy to assemble raised beds make starting a garden a snap for any sized yard. Visit [seedsofchange.com](http://seedsofchange.com) for more MFB products.

## STANDARD 4' X 4' X 11" RAISED BED

#230-08001 \$199.99

## TALL 4' X 4' X 17" RAISED BED

#230-08003 \$299.99

## LONG 4' X 8' X 11" RAISED BED

#230-08002 \$299.99

## LONG AND TALL 4' X 8' X 17" RAISED BED

#230-08004 \$399.99

## MFB ROCK SOLID TABLE GARDEN

The MiniFarmBox Table Garden assembles in less than 10 minutes with no tools. It is made with 2" x 6" lumber for maximum durability. The solid stable design is the perfect height for growers with bad backs or special needs.

#230-06788 (2'w x 4'l x 3'h) \$259.99

## ROOT POUCHES

Root Pouches are light weight, yet durable pots that are easy to store when not in use and extremely tough when filled with soil and planted. Expand your garden with these mobile pots made of thick and breathable fabric.

#220-08143 (3 gallon) \$4.99

#220-08144 (5 gallon) \$5.99

#220-08145 (7 gallon) \$6.99

## MULTIPURPOSE GROWBAG PLANTER

Set up your garden in minutes with this heavy-duty, polyethylene fabric raised bed kit. Makes a rectangular raised bed with brass reinforced drainage holes. Just fill with soil and plant!

#220-08015 (39.4"l x 16.5"w x 9.8"h.) \$12.99

## VEGETABLE PATIO PLANTERS

These fabric pots are perfect for small urban gardens, patios and balconies. Made of durable polyethylene with brass reinforced drainage holes. Each 3-pack includes a deep (40 liter), medium (35 liter) and shallow (38 liter) size fabric pot.

#220-08014 \$14.99

## HERB PLANTER

This Vigoroot planter is made from an advanced air-pruning fabric that creates a super-strong root system for healthier plants. Convenient handles on each side allow for easy mobility. Great for herbs, flowers and strawberries, as well as hydroponics. One planter per order.

#220-08059

(17.7" dia. x 9.8" h) \$8.99

## STAND UP GARDEN

Makes it easy to harvest your favorite vegetables and flowers while keeping pests at bay! Comes with a clear greenhouse cover with frontal access and side vents for airflow. A protective shade cover with zipper vents protects plants from summer heat and pests. Includes six 21" x 7" x 9" deep planter pockets, stand, clear cover and shade cover.

#230-07860 (52"h x 46.5"w x 24"d) \$199.99

# Season Extenders

## HARVESTHOUSE PRO

Our new X-UP technology provides extraordinarily easy set-up and take-down of our sturdy Harvesthouse. Achieve maximum light and heat transmission with the clear cover.

#230-07859 (6.5'h x 4.5'w x 4.5'd) **\$219.99**

## HARVESTHOUSE PLUS

The HarvestHouse Plus is a great size for small yards, patios and decks. Extremely easy to set up, you'll love the longer growing season that you'll get from this small greenhouse.

#230-07858 (6.5'h x 4.5'w x 2.5'd) **\$139.99**

## TOWER X-UP MINI GREEN HOUSE

The Tower X-Up Mini Greenhouse is a perfect size for housing your seed starting trays. Set it up in minutes virtually anywhere for a wonderful seed starting greenhouse. (63"h x 27" w x 18.5" d)

#230-07857 **\$79.99**   

## THREE SHELF GREENHOUSE

Start your plants outside and protect from mild frost in the early spring with this compact 3-shelf greenhouse. Shelves are made from powder coated metal with a clear plastic cover. Collapses for easy storage. Easy assembly requires no tools.

(50"h x 27" w x 19" d)

#220-08018 **\$49.99**

## 2 SECTION COLLAPSIBLE COLD FRAME

Our 2 section starter house allows for placement over existing plants, beds and containers. Protects plants from wind, frost and snow. Screened vents protect against most insects, birds and pests. Easy to store, set up and transport. (4'h x 8'w x 3'd)

#230-06832 **\$145.99**   

## CLEAR SEED HOUSES

Extend your growing season, protect your plants and harvest the SeedHouse™ benefits. The SeedHouse™ provides a convenient and effective way to protect your tender shrubs and perennials against damaging winter environments. Set up, take down and store in seconds! 2 large zippered windows provide excellent access. 2-screened vents allow optimum ventilation and pest protection.

#230-07861 small (2'h x 2.5'w x 2.5'd) **\$29.99**

#230-07862 medium (3'h x 4'w x 4'd) **\$44.99**

#230-07863 large - shown (3'h x 8'w x 4'd) **\$64.99**

## GIANT EASY FLEECE TUNNEL

Perfect for protecting your spring and fall crops from light frosts, the Giant Easy Fleece Tunnel provides up to 4 degrees of additional warmth and insulation while allowing water and sunlight to filter through to your plants. Galvanized steel hoops incorporated into the fabric make for quick and easy set-up. Collapses for convenient storage.

#220-07871 (10'l x 24" w x 18" h) **\$25.99**

## KITCHEN GARDEN CLOCHE

This sturdy, long-lasting, light-weight garden cloche keeps your crops warm in the spring. Adjustable air vents moderate the temperature. Made from galvanized, black-coated steel and U.V. resistant APET plastic, with galvanized steel ground pegs.

#220-08016 (39.4" w x 17.7" d x 13.8" h) **\$69.99**

## CEDAR COLD FRAME

Protect new seedlings, extend your harvest or grow year round with our FSC Certified (sustainably harvested & untreated) red cedar cold frame. It is a useful, yet beautiful addition to your raised bed or in-ground garden.

#230-07675 (3'w x 3'd x 10" high in rear) **\$249.99**

## DELUXE COLD FRAME AND VENT OPENER

This is a great way to get your salad garden going early in the spring and through late fall. Lightweight and attractive, it will complement any backyard, patio, deck or sunny balcony. The Automatic Vent Operator (sold separately & usable on any cold frame) opens and closes to eliminate worries about overheating and nighttime frosts.

#230-06834 Coldframe (4'w x 2'd x 2'h) **\$159.99**

#230-06835 Automatic Vent Operator **\$55.99**

# Cooking Tools

## LE PARFAIT CANNING JARS

Enhance your food storage by canning your own fruits and vegetables. Le Parfait jars are attractive, strong and easy to open and close.

#220-07700 (.5 liter) **\$5.99**

#220-07701 (.75 liter) **\$6.99**

#220-07702 (1 liter) **\$7.99**

## CANNING SET (6 PIECE)

The 6 essential helpers for canning and dehydrating. Vinyl coated jar wrench, vinyl coated jar lifter, extra wide mouth funnel, tongs with vinyl coated handles, bubble popper/measurer and magnetic lid lifter.

#220-07731 **\$19.99**

## ROUND CANNING LABELS

Our round canning labels measure 2" diameter and add a special touch to all your canning jars.

#220-07735 (24 labels) **\$1.99**

## GRIP-EZ PEELER

Our Grip-EZ Peeler measures 7.5" and is made with a durable and comfortable handle.

#220-07728 **\$7.99**

## GRIP-EZ PEPPER CORER

Our Grip-EZ Pepper Corer measures 8" and is made with a durable and comfortable handle. Great for any chile lover.

#220-07813 **\$7.99**

## SALAD SPINNER

Our 9" diameter deluxe salad spinner is a great accompaniment to your organic garden. Use it to wash and dry in one easy step with a smooth rotating mechanism. Includes a removable colander and multi-functional non-slip bowl base. Measures 10" tall.

#220-07730 **\$25.99**

## VERTICAL STEAMER/COOKER

Our Vertical Steamer/Cooker is made with Stainless Steel and includes a steaming rack, sturdy pot and vented, tempered glass lid. It is ideal for corn, broccoli, cauliflower, carrots, potatoes, asparagus and more. (3qt. pot is 10"h x 5.25" dia.; rack dia. is 4.5")

#220-07729 **\$39.99**

## VEGETABLE BRUSH

Scrub your organic vegetables clean with our all too cute vegetable brush. Measures 3".

#220-07737 **\$3.99**

## ULTIMATE GARLIC PRESS/SLICER

The Ultimate Garlic Press/Slicer features two compartments, one for pressing and crushing garlic and the other for slicing garlic thin with a simple squeeze. Includes cleaning tool and measures 7.5".

#220-07727 **\$24.99**

## TRIPLE BLADE HERB SCISSORS

Our triple blade herb scissors have three high precision, sharp stainless steel blades. Cut, snip and mince herbs and scallions while retaining flavorful oils. Large nonslip ergonomic comfort handles make cutting fast and easy.

#220-07736 (7.5" long) **\$12.99**

## HERB MILL

The Herb Mill is a perfect way to mince herbs. Simply place your herbs into the column and turn the handle. Stainless steel blades will produce ready to use garnish & spices for your favorite dish.

#220-07738 **\$9.99**

## STAINLESS STEEL COMMERCIAL POTATO RICER

Our stainless steel potato ricer incorporates air into your boiled potatoes, making them light and fluffy.

#220-07811 (11-1/2" long; holds 22 oz.) **\$39.99**

## STAINLESS STEEL COMMERCIAL FRENCH FRY CUTTER

Cut perfect fries every time. With a suction base, safely use the 36 or 64 steel cutter for uniformly thick or thin french fries with one simple motion.

#220-07812 (10" long x 4" wide) **\$59.99**
